2005 Edition

Federal Benefits for Veterans and Dependents

VA Special Events for 2005

The Department of Veterans Affairs (VA) sponsors a number of special events each year as part of the recreation therapy provided to veterans under VA care. For details on eligibility and participation, or to be a volunteer, contact the VA National Advisor at the phone number listed below. The schedule for 2005:

Winter Sports Clinic
Sandy Trombetta
(970) 244-1314

April 3 - 8
Snowmass, Colo.

Golden Age Games
Dewayne Vaughn
(202) 745-8615

May 21 - 26
Oklahoma City, Okla.

Wheelchair Games
Tom Brown
(210) 617-5159

June 27 - July 1
Minneapolis, Minn.

Creative Arts Festival
Elizabeth Mackey
(320) 255-6351

October 17 - 23
Denver, Colo.

Introduction

This pamphlet describes federal benefits available to veterans and their dependents as of Jan. 1, 2005. Changes may occur during the year as a result of legislative or other requirements. The Department of Veterans Affairs (VA) World Wide Web pages (<http://www.va.gov>) are updated throughout the year to present the most current information. The VA Home page contains links to sections on compensation and pension, health care, burial benefits, home loan guarantees and other information.

Eligibility depends upon individual circumstances. To determine eligibility for VA health care, contact the Enrollment Coordinator at the nearest VA health care facility or call the Health Benefits Service Center at 1-877-222-8387. For other VA benefits eligibility, contact a VA benefits office at 1-800-827-1000 from any location in the United States. Assistance is also available through Telecommunication Device for the Deaf (TDD) at 1-800-829-4833. Phone numbers of VA offices, including those in the Philippines and Puerto Rico, are listed in the back of this book. VA facilities also are listed in the federal government section of telephone directories.

Eligibility for most VA benefits is based upon discharge from active military service under other than dishonorable conditions. Active service means full-time service, other than active duty for training, as a member of the Army, Navy, Air Force, Marine Corps, Coast Guard, or as a commissioned officer of the Public Health Service, the Environmental Science Services Administration or the National Oceanic and Atmospheric Administration, or its predecessor organization, the Coast and Geodetic Survey. Men and women veterans with similar service are entitled to the same VA benefits.

Honorable and general discharges qualify a veteran for most VA benefits. Dishonorable and bad conduct discharges issued by general courts-martial may bar VA benefits. Veterans in prison and parolees may be eligible for certain VA benefits. VA regional offices can clarify the eligibility of prisoners, parolees and individuals with multiple discharges issued under differing conditions. VA benefits will not be provided to any veteran or dependent wanted for an outstanding felony warrant.

Wartime Service

Certain VA benefits require wartime service. Under the law, VA recognizes these war periods:

Mexican Border Period: May 9, 1916, through April 5, 1917, for veterans who served in Mexico, on its borders or in adjacent waters.

World War I: April 6, 1917, through Nov. 11, 1918; for veterans who served in Russia, April 6, 1917, through April 1, 1920; extended through July 1, 1921, for veterans who had at least one day of service between April 6, 1917, and Nov. 11, 1918.

World War II: Dec. 7, 1941, through Dec. 31, 1946.

Korean War: June 27, 1950, through Jan. 31, 1955.

Vietnam War: Aug. 5, 1964 (Feb. 28, 1961, for veterans who served "in country" before Aug. 5, 1964), through May 7, 1975.

Gulf War: Aug. 2, 1990, through a date to be set by law or Presidential Proclamation.

Special Groups: A number of groups who have provided military-related service to the United States have been granted VA benefits. For the service to qualify, the Secretary of Defense must certify that the group has provided active military service. Individuals must be issued a discharge by the Secretary of Defense to qualify for VA benefits. Service in the following groups has been certified as active military service for benefits purposes:

1. Women Air Force Service Pilots (WASPs).
2. World War I Signal Corps Female Telephone Operators Unit.
3. Engineer Field Clerks.
4. Women's Army Auxiliary Corps (WAAC).
5. Quartermaster Corps female clerical employees serving with the American Expeditionary Forces in World War I.
6. Civilian employees of Pacific naval air bases who actively participated in defense of Wake Island during World War II.
7. Reconstruction aides and dietitians in World War I.
8. Male civilian ferry pilots.
9. Wake Island defenders from Guam.
10. Civilian personnel assigned to OSS secret intelligence.
11. Guam Combat Patrol.

12. Quartermaster Corps members of the Keswick crew on Corregidor during World War II.
13. U.S. civilians who participated in the defense of Bataan.
14. U.S. merchant seamen who served on block ships in support of Operation Mulberry in the World War II invasion of Normandy.
15. American merchant marines in oceangoing service during World War II.
16. Civilian Navy IFF radar technicians who served in combat areas of the Pacific during World War II.
17. U.S. civilians of the American Field Service who served overseas in World War I.
18. U.S. civilians of the American Field Service who served overseas under U.S. armies and U.S. army groups in World War II.
19. U.S. civilian employees of American Airlines who served overseas in a contract with the Air Transport Command between Dec. 14, 1941, and Aug. 14, 1945.
20. Civilian crewmen of U.S. Coast and Geodetic Survey vessels who served in areas of immediate military hazard while conducting cooperative operations with and for the U.S. armed forces between Dec. 7, 1941, and Aug. 15, 1945.
21. Members of the American Volunteer Group (Flying Tigers) who served between Dec. 7, 1941, and July 18, 1942.
22. U.S. civilian flight crew and aviation ground support employees of United Air Lines who served overseas in a contract with Air Transport Command between Dec. 14, 1941, and Aug. 14, 1945.
23. U.S. civilian flight crew and aviation ground support employees of Transcontinental and Western Air, Inc. (TWA), who served overseas in a contract with the Air Transport Command between Dec. 14, 1941, and Aug. 14, 1945.
24. U.S. civilian flight crew and aviation ground support employees of Consolidated Vultee Aircraft Corp. (Consairway Division) who served overseas in a contract with Air Transport Command between Dec. 14, 1941, and Aug. 14, 1945.
25. U.S. civilian flight crew and aviation ground support employees of Pan American World Airways and its subsidiaries and affiliates, who served overseas in a contract with the Air Transport Command and Naval Air Transport Service between Dec. 14, 1941, and Aug. 14, 1945.
26. Honorably discharged members of the American Volunteer Guard, Eritrea Service Command, between June 21, 1942, and March 31, 1943.
27. U.S. civilian flight crew and aviation ground support employees of Northwest Airlines who served overseas under the airline's

contract with Air Transport Command from Dec. 14, 1941, through Aug. 14, 1945.

28. U.S. civilian female employees of the U.S. Army Nurse Corps who served in the defense of Bataan and Corregidor during the period Jan. 2, 1942, to Feb. 3, 1945.

29. U.S. flight crew and aviation ground support employees of Northeast Airlines Atlantic Division, who served overseas as a result of Northeast Airlines' contract with the Air Transport Command during the period Dec. 7, 1941, through Aug. 14, 1945.

30. U.S. civilian flight crew and aviation ground support employees of Braniff Airways, who served overseas in the North Atlantic or under the jurisdiction of the North Atlantic Wing, Air Transport Command, as a result of a contract with the Air Transport Command during the period Feb. 26, 1942, through Aug. 14, 1945.

31. Honorably discharged members of the Alaska Territorial Guard who served during the period Dec. 31, 1941, through 1947.

Selected Reserve and National Guard: Current and former members of the Selected Reserve who served on active duty establish veteran status and may be eligible for VA benefits, depending on the length of active military service and the character of discharge. In addition, reservists not activated may qualify for some VA benefits. Members of the National Guard activated for federal service during a period of war or domestic emergency may be eligible for certain VA benefits, such as VA health care, compensation for injuries or conditions connected to that service, and burial benefits. Activation for other than federal service does not qualify guard members for all VA benefits. Claims for VA benefits based on federal service filed by members of the National Guard should include a copy of the military orders, presidential proclamation or executive order that clearly demonstrates the federal nature of the service.

Filipino Veterans: World War II era Filipino veterans are eligible for certain VA benefits. Generally, Old Philippine Scouts are eligible for VA benefits in the same manner as U.S. veterans. Commonwealth Army veterans, including certain organized Filipino guerrilla forces and New Philippine Scouts residing in the United States who are citizens or lawfully admitted for permanent residence, are also eligible for VA health care in the United States on the same basis as U.S. veterans.

Certain Commonwealth Army veterans and new Philippine Scouts may be eligible for disability compensation and burial benefits.

Other veterans of recognized guerrilla groups also might be eligible for certain VA benefits. Survivors of World War II era Filipino veterans may be eligible for dependency and indemnity compensation. Eligibility and the rates of monetary benefits may vary based on the recipient's citizenship and place of residence.

Important Documents: Those seeking a VA benefit for the first time must submit a copy of their service discharge form (DD-214, DD-215, or for WWII veterans, a WD form), which documents service dates and type of discharge, or give their full name, military service number, branch and dates of service.

The veteran's service discharge form should be kept in a safe location accessible to the veteran and next of kin or designated representative. The veteran's preference regarding burial in a national cemetery and use of a headstone provided by VA should be documented and kept with this information. The following documents will be needed for claims processing related to a veteran's death: (1) veteran's marriage certificate for claims of a surviving spouse or children; (2) veteran's death certificate if the veteran did not die in a VA health care facility; (3) children's birth certificates or adoption papers to determine children's benefits; (4) veteran's birth certificate to determine parents' benefits.

Privacy Act: The Privacy Act provides the right to access and request amendment of information collected and used by the federal government. For information, contact the Privacy Act officer at the facility where the information is maintained or visit the Privacy and Security section on VA's Home page: <http://www.va.gov>.

Información Para Veteranos De Habla Hispana y Sus Dependientes

La versión en español de este folleto se encuentra disponible en formato Adobe Acrobat a través de el link (<http://www.va.gov/opa/feature/index.htm>) en la página de la Oficina de Asuntos Públicos del Departamento de Asuntos de Veteranos (VA) en la red mundial del internet. Las oficinas del VA en áreas de gran concentración de veteranos y dependientes hispanos tienen disponibles consejeros bilingües que le pueden ayudar a aplicar para obtener beneficios. Puede encontrar una lista de las oficinas del VA en la parte de atrás de este folleto.

Health Care Benefits

Health Care Enrollment

For most veterans, entry into the VA health care system begins by applying for enrollment. Veterans do not have to be enrolled if they: (1) have a service-connected disability of 50 percent or more; (2) want care for a disability the military determined was incurred or aggravated in the line of duty, but which VA has not yet rated, during the 12-month period following discharge; or (3) want care for a service-connected disability only. To permit better planning of health resources, however, these three categories of veterans are urged to enroll.

To apply, veterans must complete VA Form 10-10EZ, Application for Health Benefits. The form may be obtained from any VA health care facility or regional benefits office, or by calling the VA Health Benefits Service Center toll-free at 1-877-222-VETS (8387). It is also available through the online applications link on VA's Home page: <http://www.va.gov>. Veterans may complete the form at a VA medical facility or at home and mail it to a local VA medical facility for processing. Once enrolled, eligible veterans can receive services at VA facilities anywhere in the country.

Priority Groups

Veterans will be assigned the highest priority group for which they qualify. VA uses the priority group system to balance demand with available resources. Changes in VA's available resources may reduce the number of priority groups VA can enroll. If this occurs, VA will publicize the changes and notify affected enrollees.

Veterans will be enrolled to the extent Congressional appropriations allow. If appropriations are limited, enrollment will occur based on the following priorities:

Priority Group 1: Veterans with service-connected disabilities rated 50 percent or more and veterans determined by VA to be unemployable due to service-connected conditions.

Priority Group 2: Veterans with service-connected disabilities rated 30 or 40 percent.

Priority Group 3: Veterans with service-connected disabilities rated 10 and 20 percent, veterans who are former POWs or were awarded a Purple Heart, veterans awarded special eligibility for disabilities incurred in treatment or participation in a VA Vocational Rehabilitation program, and veterans whose discharge was for a disability incurred or aggravated in the line of duty.

Priority Group 4: Veterans receiving aid and attendance or house-bound benefits and veterans determined by VA to be catastrophically disabled. Some veterans in this group may be responsible for copayments.

Priority Group 5: Veterans receiving VA pension benefits or eligible for Medicaid programs, and nonservice-connected veterans and noncompensable zero percent service-connected veterans whose annual income and net worth are below the established VA means test thresholds.

Priority Group 6: Veterans of the Mexican border period or World War I; veterans seeking care solely for certain conditions associated with exposure to radiation, for any illness associated with combat service in a war after the Gulf War or during a period of hostility after Nov. 11, 1998, for any illness associated with participation in tests conducted by the Defense Department as part of Project 112/Project SHAD; and veterans with zero percent service-connected disabilities who are receiving disability compensation benefits.

Priority Group 7: Nonservice-connected veterans and noncompensable zero percent service-connected veterans with income above VA's national means test threshold and below VA's geographic means test threshold, or with income below both the VA national threshold and the VA geographically based threshold, but whose net worth exceeds VA's ceiling (currently \$80,000) who agree to pay copayments.

Priority Group 8: All other nonservice-connected veterans and zero percent noncompensable service-connected veterans who agree to pay copayments. (Note: Effective Jan. 17, 2003, VA no longer enrolls new veterans in priority group 8).

Special Access to Care

Service Disabled Veterans: Veterans who are 50 percent or more disabled from service-connected conditions, unemployable due to service-connected conditions, or receiving care for a service-connected disability receive priority in scheduling of hospital or outpatient medical appointments.

Combat Veterans: Veterans who served in combat locations during active military service after Nov. 11, 1998, are eligible for free health care services for conditions potentially related to combat service for two years following separation from active duty. For additional information call 1-877-222-8387.

Financial Information

Financial Assessment

Veterans enrolling in priority group 5 based on their inability to defray the cost of care must provide information on their annual household income and net worth to determine whether they are below the annually adjusted “means test” financial threshold.

Veterans completing a financial assessment must report their annual gross household income plus net worth, which includes Social Security, U.S. Civil Service retirement, U.S. Railroad retirement, military retirement, unemployment insurance, any other retirement income, total wages from all employers, interest and dividends, workers’ compensation, black lung benefits and any other gross income for the calendar year prior to application for care. Also considered are assets such as the market value of property that is not the primary residence, stocks, bonds, notes, individual retirement accounts, bank deposits, savings accounts and cash.

VA also is required to compare veterans’ financial assessment information with a geographically based income threshold. If the veteran’s income is below the threshold where the veteran lives, he or she is eligible for an 80-percent reduction in the inpatient copayment rates.

VA may compare income information provided by certain veterans with information obtained from the Social Security Administration and the Internal Revenue Service.

Services Requiring Copayments

Nonservice-connected veterans and noncompensable zero percent service-connected veterans whose income is above the national “means test” threshold must agree to pay appropriate copayments for care. If they do not agree to make copayments, they are ineligible for VA care.

Inpatient Care: Veterans whose income is determined to be above the means test threshold and below VA’s geographically based income threshold are responsible for paying 20 percent of the Medicare deductible for the first 90 days of inpatient hospital care during any 365-day period. For each additional 90 days of hospital care, they are charged 10 percent of the Medicare deductible. In addition, the patient is charged \$2 a day for hospital care. Nonservice-connected veterans and noncompensable zero percent service-connected veterans with incomes above the geographic income threshold will be charged the full Medicare deductible for the first 90 days of care during any 365-day period. For each additional 90 days, they are charged one half of the Medicare deductible and \$10 per day.

Extended care: With certain exceptions, a veteran must agree to pay copayments for extended care. A veteran’s application for extended care services (VAF 10-10EC) requires financial information used to determine the monthly copayment amount, based on each veteran’s financial situation.

Medication: Most veterans are currently charged \$7 for a 30-day or less supply of medication.

Outpatient Care: A three-tiered copayment system is effective for all outpatient services. The copayment is \$15 for a primary care visit and \$50 for some specialized care. Preventative care services do not require a copayment.

Outpatient Visits Not Requiring Copayments

Outpatient visits for which no copayment will be assessed include: publicly announced VA health initiatives (e.g., health fairs) or an outpatient visit solely consisting of preventive screening and/or immunizations, such as influenza immunization, pneumococcal immunization, hypertension screening, hepatitis C screening, tobacco screening, alcohol screening, hyperlipidemia screening, breast cancer screening, cervical cancer screening, screening for colorectal cancer by fecal occult blood testing, and education about the risks and

benefits of prostate cancer screening. Laboratory, flat film radiology services, and electrocardiograms are also exempt from copayments.

Billing Insurance Companies

VA is required to bill private health insurance providers for medical care and services, supplies and prescriptions provided for veterans' nonservice-connected conditions. Money collected in this way is used to maintain and improve VA's health care system. Generally, VA cannot bill Medicare for medical services provided to veterans; however, VA can bill Medicare supplemental health insurance for medical services covered by the supplemental insurance but not by Medicare.

All veterans applying for VA medical care are required to provide information on their health insurance coverage, including coverage provided under policies of their spouses. Veterans are not responsible for paying any remaining balance of VA's insurance claim that is not paid or covered by their health insurance, and any payment received by VA may be used to offset "dollar for dollar" a veteran's VA copayment responsibility.

Health Care Programs

Veteran Health Registries

VA maintains veteran health registries to provide special health examinations and health-related information to certain groups of veterans.

Gulf War Registry: For veterans who served in the Gulf War (Aug. 2, 1990, to a date not yet established) and Operation Iraqi Freedom.

Depleted Uranium Registries: VA maintains two registries for veterans possibly exposed to depleted uranium. The first is for veterans who served in the Gulf War, including Operation Iraqi Freedom. The second is for veterans who served elsewhere, including Bosnia and Afghanistan.

Agent Orange Registry: For veterans possibly exposed to dioxin or other toxic substances in herbicides used during the Vietnam War (between 1962 and 1975), while serving in Korea in 1968 or 1969, or as a result of testing, transporting, or spraying herbicides for military purposes.

Ionizing Radiation Registry: For veterans possibly exposed to atomic radiation during the following activities: participation in tests involving the atmospheric detonation of a nuclear device; occupation of Hiroshima or Nagasaki from Aug. 6, 1945, through July 1, 1946; internment as a prisoner of war in Japan during World War II; serving in official military duties at the Department of Energy gaseous diffusion plants at Paducah, Ky.; Portsmouth, Ohio; or the K-25 area at Oak Ridge, Tenn., for at least 250 days before Feb. 1, 1992, or in Longshot, Milrow or Cannikin underground nuclear tests at Amchitka Island, Alaska, before Jan. 1, 1974; or treatment with nasopharyngeal (NP) radium during military service.

Veterans eligible for participation in any VA registry may receive free, comprehensive registry medical examinations, including laboratory and other diagnostic tests deemed necessary by an examining clinician. Eligible veterans do not have to be enrolled in VA health care to participate in registry examinations. Veterans wishing to participate should contact the nearest VA health care facility or visit the Internet: <http://www.va.gov/enviroagents/>.

Readjustment Counseling Service

Readjustment counseling is provided at 206 community-based Vet Centers located in all 50 states, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands, and is designed to help combat veterans in their readjustment to civilian life. Vet Center staff provide individual, group and family counseling plus a wide range of other services to include medical referral, homeless veteran services, employment services, VA benefit referral, and the brokering of non-VA services.

Eligible veterans include those who served on active duty in a combat theater during World War II, the Korean War, the Vietnam War, the Gulf War, or the campaigns in Lebanon, Grenada, Panama, Somalia, Bosnia, Kosovo, Afghanistan, Iraq and the war on terror. Veterans who served in the active military during the Vietnam Era, but not in the Republic of Vietnam, are also eligible, provided they requested services at a Vet Center before Jan. 1, 2004. Vet Centers also provide bereavement counseling to the families of military personnel killed in action and sexual trauma counseling to veterans who suffered sexual trauma while on active duty.

Readjustment difficulties can include post-traumatic stress disorder (PTSD) or any other problems that affect functioning within the

family, work, school or other areas of everyday life. For additional information, contact the nearest Vet Center, listed in the federal government section of telephone directories, or visit the Internet: <http://www.va.gov/rcs>.

Prosthetic and Sensory Aid Services

VA will furnish needed prosthetic appliances, equipment and devices, such as artificial limbs, orthopedic braces and shoes, wheelchairs, crutches and canes, and other durable medical equipment and supplies to veterans receiving VA care for any condition. VA will provide hearing aids and eyeglasses to veterans who receive increased pension based on the need for regular aid and attendance or being permanently housebound, receive compensation for a service-connected disability or are former prisoners of war. Otherwise, hearing aids and eyeglasses will be provided only in special circumstances, and not for normally occurring hearing or vision loss. For additional information, contact the prosthetic representative at your local VA health care facility.

Services and Aids for Blind Veterans

Blind veterans may be eligible for services at a VA medical center or for admission to a VA blind rehabilitation center. Services are available at all VA medical facilities through the Visual Impairment Services coordinator. In addition, blind veterans enrolled in the VA health care system may receive VA aids for the blind, including:

1. A total health and benefits review.
2. Adjustment to blindness training.
3. Home improvements and structural alterations to homes.
4. Specially adapted housing and adaptations.
5. Automobile grant.
6. Low-vision aids and training in their use.
7. Electronic and mechanical aids for the blind, including adaptive computers and computer-assisted devices such as reading machines and electronic travel aids.
8. Guide dogs, including the expense of training the veteran to use the dog.
9. Talking books, tapes and Braille literature.

Home Improvements and Structural Alterations

VA provides funding for eligible veterans to make home improvements necessary for the continuation of treatment or for disability

access to the home and essential lavatory and sanitary facilities. Home improvement benefits up to \$4,100 for service-connected veterans and up to \$1,200 for nonservice-connected veterans may be provided. For application information, contact the prosthetic representative at the nearest VA medical center or outpatient clinic.

Alcohol and Drug-Dependence Treatment

Veterans eligible for VA medical care may apply for substance abuse treatment. Contact the nearest VA medical facility to apply.

Compensated Work Therapy

VA provides vocational assistance and therapeutic work opportunities for eligible veterans through several programs. Each program offers rehabilitative treatment to help veterans live and work in their communities.

Incentive Therapy is a token base payment program frequently used as a precursor to Compensated Work Therapy (CWT) or as a mainstay for veterans unable to work in the community. Veterans referred to CWT receive an individualized vocational assessment, rehabilitation planning and work experience. The goal is to help veterans achieve a maximum degree of self-sufficiency based on their needs, preferences and abilities. The CWT program works closely with community-based organizations, employers and state and federal agencies to establish transitional work experiences, direct job placement and supportive follow-up services.

The CWT/Transitional Residence program provides work-based, residential treatment in a stable living environment. This program differs from other VA residential bed programs in that participants use their CWT earnings to contribute to the cost of operating and maintaining their residences and are responsible for planning, purchasing and preparing their own meals. The program offers a comprehensive array of rehabilitation services including home, financial and life skills management in a therapeutic community model.

Outpatient Dental Treatment

Outpatient dental treatment provided by VA includes examinations and the full spectrum of diagnostic, surgical, restorative and preventive procedures. Veterans eligible to receive dental care include the following: (1) veterans having service-connected and compensable dental disabilities or conditions; (2) former prisoners of war;

(3) veterans with service-connected, noncompensable dental conditions as a result of combat wounds or service injuries; (4) veterans with nonservice-connected dental conditions determined by VA to be aggravating a service-connected medical problem; (5) veterans having service-connected conditions rated as permanently and totally disabling or rated 100 percent by reason of individual unemployability; (6) veterans participating in a vocational rehabilitation program under chapter 31 of title 38; (7) certain enrolled homeless veterans participating in specific health care programs; (8) veterans with non-service connected dental conditions for which treatment was begun while the veteran was an inpatient in a VA facility when it is necessary to complete such treatment on an outpatient basis; and (9) veterans requiring treatment for dental conditions clinically determined to be complicating a medical condition currently under treatment.

Recently discharged veterans who served on active duty 90 days or more and who apply for VA dental care within 90 days of separation from active duty, may receive one time treatment for dental conditions if the veteran's certificate of discharge does not indicate that the veteran received necessary dental care within a 90-day period prior to discharge or release.

Outpatient Pharmacy Services

Outpatient pharmacy services are provided free to: (1) veterans with a service-connected disability of 50 percent or more; (2) veterans receiving medication for treatment of service-connected conditions; (3) veterans whose annual income does not exceed the maximum VA annual rate of the VA pension; (4) veterans receiving medication for conditions related to exposure to ionizing radiation; (5) veterans receiving medication for conditions related to combat service in a war after the Gulf War or against a hostile force in a period of hostilities beginning after Nov. 11, 1998; (6) veterans receiving medication for conditions related to participation in Defense Department tests conducted as part of Project 112/Project SHAD; (7) veterans receiving medication for conditions related to sexual trauma experienced while serving on active duty; (8) certain veterans receiving medication for treatment of cancer of the head or neck; (9) veterans receiving medication as part of a VA-approved research project, and (10) former prisoners of war. Other veterans will be charged a copayment of \$7 for each 30-day or less supply of medication. To eliminate a financial hardship for veterans who require an unusually large amount of medications, there is a maximum copayment amount that veterans enrolled in Priority Groups 2 through 6 pay in any single year.

Veterans do not pay copayments for medications dispensed during the remainder of a calendar year in which this annual cap amount has been paid. For calendar year 2005, the cap is \$840.

The medication copayment applies to prescription and over-the-counter medications, such as aspirin, cough syrup or vitamins, dispensed by a VA pharmacy. Medication copayments are not charged for medications injected during the course of treatment or for medical supplies, such as syringes or alcohol wipes. In the event over-the-counter drugs are ordered, the veteran can choose to purchase them at a local pharmacy rather than pay \$7 for items such as aspirin, cough syrup or vitamins.

Nursing-Home Care

VA provides nursing home services through three national programs: VA owned and operated nursing homes, state veterans homes owned and operated by the state, and contract community nursing homes. Each program has its own admission and eligibility criteria.

VA owned and operated homes typically admit residents requiring short-term skilled care, or who have a 70 percent or more service-connected disability, or who require nursing home care because of a service-connected disability. The state veterans home program is a cooperative venture between VA and the states whereby VA provides funds to help build the home and pays a portion of the costs for veterans eligible for VA health care. The states, however, set eligibility criteria for admission. The contract nursing home program is designed to meet the long-term nursing home care needs of veterans who may not be eligible and/or qualify for placement in a VA or state veterans home or if there is no VA or state home available.

To be placed in a nursing home, veterans generally must be medically stable, have a condition that requires inpatient nursing home care, and be assessed by an appropriate medical provider to be in need of institutional nursing home care. They also must meet the eligibility requirements for the home to which they are applying. For VA nursing homes, they may have to pay a copayment depending on their financial status. VA social workers can help interpret eligibility and co-payment requirements.

In addition to nursing home care, VA offers other extended care services either directly or by contract with community agencies, including adult day care, respite care, geriatric evaluation and

management, hospice and palliative care, and home based primary care. These services may require copayment.

Domiciliary Care

Domiciliary care provides rehabilitative and long-term, health-maintenance care for veterans who require minimal medical care but do not need the skilled nursing services provided in nursing homes. VA may provide domiciliary care to veterans whose annual income does not exceed the maximum annual rate of VA pension or to veterans the Secretary of Veterans Affairs determines have no adequate means of support. The copayments for extended care services apply to domiciliary care. Call your nearest benefits or health care facility for information.

Medical Care for Dependents and Survivors

CHAMPVA, the Civilian Health and Medical Program of the Department of Veterans Affairs, provides reimbursement for most medical expenses – inpatient, outpatient, mental health, prescription medication, skilled nursing care and durable medical equipment. To be eligible for CHAMPVA, an individual cannot be eligible for TRICARE (the medical program for civilian dependents provided by the Department of Defense) and must be one of the following:

1. The spouse or child of a veteran who VA has rated permanently and totally disabled for a service-connected disability.
2. The surviving spouse or child of a veteran who died from a VA-rated service-connected disability, or who, at the time of death, was rated permanently and totally disabled.
3. The surviving spouse or child of a military member who died in the line of duty, not due to misconduct. However, in most of these cases, these family members are eligible for TRICARE, not CHAMPVA.

A surviving spouse under age 55 who remarries loses CHAMPVA eligibility on midnight of the date of remarriage. However eligibility may be re-established if the remarriage is terminated by death, divorce or annulment effective the first day of the month after the termination of the remarriage or Dec. 1, 1999, whichever date is later. A CHAMPVA eligible surviving spouse who is 55 or older does not lose eligibility upon remarriage.

Individuals who have Medicare entitlement may also have CHAMPVA eligibility secondary to Medicare. Eligibility limitations apply.

For additional information or to apply for benefits, contact the VA Health Administration Center, P.O. Box 65023, Denver, CO 80206, call 1-800-733-8387 or visit the Internet: <http://www.va.gov/hac/>.

Many VA medical centers provide services to CHAMPVA beneficiaries under the CHAMPVA In House Treatment Initiative (CITI) program. Contact the nearest VA medical center to determine if it is a participating facility. Beneficiaries who use a CITI facility incur no cost for services they receive, however services are provided on a space available basis, after the needs of veterans are met. Therefore, not all services are available at all times. CHAMPVA beneficiaries covered by Medicare cannot use the CITI program.

Beneficiary Travel

Certain veterans may be eligible for payment or reimbursement for travel costs to receive VA medical care. Reimbursement is paid at \$.11 per mile (or \$.17 per mile if called for a repeat C&P exam) and is subject to a deductible of \$3 for each one-way trip and an \$18-per-month maximum payment. Two exceptions to the deductible are travel for a compensation or pension examination and travel by special modes of transportation, such as an ambulance or a specially equipped van. Beneficiary travel payments may be made to the following: (1) veterans whose service-connected disabilities are rated at 30 percent or more; (2) veterans traveling for treatment of a service-connected condition; (3) veterans who receive a VA pension; (4) veterans traveling for scheduled compensation or pension examinations; (5) veterans whose income does not exceed the maximum annual VA pension rate; and (6) veterans whose medical condition requires special mode of transportation, if the veteran is unable to defray the costs and travel is pre-authorized. Advance authorization is not required in a medical emergency if a delay would be hazardous to life or health.

Emergency Medical Care in Non-VA Facilities

VA may provide reimbursement or payment for medical care provided to enrolled veterans by non-VA facilities only in cases of medical emergencies where VA or other federal facilities were not feasibly available. Other conditions also apply. To determine eligibility or initiate a claim, contact the VA medical facility nearest to where the emergency service was provided.

Veterans Living or Traveling Overseas

VA will pay for medical care associated with a service-connected condition for veterans living or traveling overseas. See the Overseas Benefits section for more information.

Merchant Marine Seamen

Certain Merchant Marine seamen who served in World War II may qualify for veterans benefits. When applying for medical care, seamen must present their discharge certificate from the Department of Defense. VA regional offices can assist in obtaining a certificate.

Allied Veterans

VA is authorized to provide medical care to certain veterans of nations allied or associated with the United States during World War I or World War II. Such treatment is available at any VA medical facility if authorized and reimbursed by the foreign government. VA also is authorized to provide hospitalization, outpatient and domiciliary care to former members of the armed forces of Czechoslovakia or Poland who participated during World Wars I or II in armed conflict against an enemy of the United States, if they have been citizens of the United States for at least 10 years.

Benefit Programs

Disability Compensation

Disability compensation is a monetary benefit paid to veterans who are disabled by injury or disease incurred or aggravated during active military service. The service of the veteran must have been terminated through separation or discharge under conditions other than dishonorable. Disability compensation varies with the degree of disability and the number of dependents, and is paid monthly. The benefits are not subject to federal or state income tax. The payment of military retirement pay, disability severance pay and separation incentive payments known as SSB and VSI (Special Separation Benefits and Voluntary Separation Incentives) also affects the amount of VA compensation paid. See the "Tables" section of this booklet for more information.

Receiving Benefit Payments

VA offers three methods for receiving benefit payments. Most veterans and beneficiaries receive their payments by direct deposit through an electronic funds transfer to their bank, savings and loan or credit union accounts. In some areas, benefit recipients who do not have an account at a financial institution may open a federally insured Electronic Transfer Account, which costs about \$3 a month, provides a monthly statement and allows cash withdrawals. Recipients may also choose to receive benefits by check. To choose a payment method, call VA's toll-free helpline at 1-877-838-2778, Monday through Friday, 7:30 a.m. - 4:00 p.m., Central Standard Time.

Prisoners of War

Former prisoners of war (POW) are eligible for disability compensation if they are rated at least 10 percent disabled from conditions presumed to be related to the POW experience. The following presumptive conditions apply to former POWs who were imprisoned for any length of time: psychosis, any of the anxiety states, dysthymic disorder, organic residuals of frostbite, post-traumatic osteoarthritis, heart disease (including ischemic heart disease), stroke and residuals of stroke.

Former POWs who were imprisoned for at least 30 days are also eligible for the following additional presumptive conditions: avitaminosis, beriberi, chronic dysentery, helminthiasis, malnutrition (including

optic atrophy), pellagra and/or other nutritional deficiencies, irritable bowel syndrome, peptic ulcer disease, peripheral neuropathy and cirrhosis of the liver.

Agent Orange and Other Herbicides

Eleven diseases are presumed by VA to be service-related for compensation purposes for veterans exposed to Agent Orange and other herbicides used in support of military operations in the Republic of Vietnam between Jan. 9, 1962, and May 7, 1975. The diseases presumed are: chloracne or other acneform disease similar to chloracne, porphyria cutanea tarda, soft-tissue sarcoma (other than osteosarcoma, chondrosarcoma, Kaposi's sarcoma or mesothelioma), Hodgkin's disease, multiple myeloma, respiratory cancers (lung, bronchus, larynx, trachea), non-Hodgkin's lymphoma, prostate cancer, acute and subacute peripheral neuropathy, diabetes mellitus (Type 2) and chronic lymphocytic leukemia.

Veterans Exposed to Radiation

Veterans exposed to ionizing radiation while on active duty may be eligible for disability compensation if they have disabilities related to that exposure. Conditions presumed to be service-connected for veterans who participated in "radiation-risk activities" as defined by VA regulations are: all forms of leukemia (except for chronic lymphocytic leukemia); cancer of the thyroid, breast, pharynx, esophagus, stomach, small intestine, pancreas, bile ducts, gall bladder, salivary gland, urinary tract (renal pelvis, ureter, urinary bladder and urethra), brain, bone, lung, colon, and ovary, bronchiolo-alveolar carcinoma, multiple myeloma, lymphomas (other than Hodgkin's disease), and primary liver cancer (except if cirrhosis or hepatitis B is indicated). To determine service-connection for other conditions or exposures not eligible for presumptive compensation, factors considered include amount of radiation exposure, duration of exposure, elapsed time between exposure and onset of the disease, gender and family history, age at time of exposure, the extent to which a nonservice-related exposure could contribute to disease, and the relative sensitivity of exposed tissue.

Gulf War Veterans

Gulf War veterans who suffer from chronic disabilities resulting from undiagnosed illnesses, medically unexplained chronic multi-symptom illnesses (such as chronic fatigue syndrome, fibromyalgia or irritable bowel syndrome) that are defined by a cluster of signs or symptoms, and any diagnosed illness that the Secretary of Veterans Affairs

determines warrants a presumption of service-connection may receive disability compensation. The undiagnosed illnesses must have appeared either during active duty in the Southwest Asia Theater of Operations during the Gulf War or to a degree of at least 10 percent at any time since then through Dec. 31, 2006.

The following symptoms are among the manifestations of an undiagnosed illness: fatigue, skin disorders, headache, muscle pain, joint pain, neurologic symptoms, neuropsychological symptoms, symptoms involving the respiratory system, sleep disturbances, gastrointestinal symptoms, cardiovascular symptoms, abnormal weight loss and menstrual disorders. A disability is considered chronic if it has existed for at least six months.

Amiotrophic Lateral Sclerosis (ALS) may also be service-connected if the veteran served in the Southwest Asia Theater of Operations during the period of Aug. 2, 1990, to July 31, 1991.

Specially Adapted Homes

Certain veterans with service-connected disabilities may be entitled to a grant from VA to assist in either building a new specially adapted home or in purchasing an existing home to modify and remodel to meet their disability-related requirements.

\$50,000 Grant: VA may approve a grant of not more than 50 percent of the cost of building, buying, or adapting existing homes or paying to reduce indebtedness on a previously owned home that is being adapted, up to a maximum of \$50,000. In certain instances, the full grant amount may be applied toward remodeling costs.

Veterans must be determined eligible to receive compensation for permanent and total service-connected disability due to one of the following:

1. Loss or loss of use of both lower extremities, such as to preclude locomotion without the aid of braces, crutches, canes or a wheelchair.
2. Loss or loss of use of both upper extremities at or above the elbow.
3. Blindness in both eyes, having only light perception, plus loss or loss of use of one lower extremity.
4. Loss or loss of use of one lower extremity together with (a) residuals of organic disease or injury, or (b) the loss or loss of use of

one upper extremity which so affects the functions of balance or propulsion as to preclude locomotion without the use of braces, canes, crutches or a wheelchair.

\$10,000 Grant: VA may approve a grant for the actual cost, up to a maximum of \$10,000, for adaptations to a veteran's residence that are determined by VA to be reasonably necessary. The grant also may be used to help veterans acquire a residence already adapted with special features for the veteran's disability. Veterans must be entitled to compensation for permanent and total service-connected disability due to (1) blindness in both eyes with 5/200 visual acuity or less, or (2) anatomical loss or loss of use of both hands.

Supplemental Financing: Veterans with available loan guaranty entitlement may also obtain a guaranteed loan or a direct loan from VA to supplement the grant to acquire a specially adapted home. Amounts with a guaranteed loan from a private lender will vary, but the maximum direct loan from VA is \$33,000.

Automobile Assistance

Veterans and servicemembers qualify for this benefit if they have service-connected loss or permanent loss of use of one or both hands or feet, or permanent impairment of vision of both eyes to a certain degree. Veterans and servicemembers entitled to compensation for ankylosis (immobility) of one or both knees, or one or both hips, also qualify for adaptive equipment for an automobile. There is a one-time payment by VA of not more than \$11,000 toward the purchase of an automobile or other conveyance. VA pays for adaptive equipment, and for repair, replacement, or reinstallation required because of disability, and for the safe operation of a vehicle purchased with VA assistance. To apply, contact a VA regional office at 1-800-827-1000 or the nearest VA medical center.

Clothing Allowance

Any veteran who is entitled to receive compensation for a service-connected disability for which he or she uses prosthetic or orthopedic appliances may receive an annual clothing allowance. The allowance also is available to any veteran whose service-connected skin condition requires prescribed medication that irreparably damages the veteran's outer garments. Veterans with qualifying service-connected disabilities can apply for a clothing allowance by contacting the Prosthetic and Sensory Aid Service at the closest VA health care facility.

Allowances for Dependents

Veterans whose service-connected disabilities are rated at 30 percent or more are entitled to additional allowances for dependents. The additional amount is determined by the number of dependents and the degree of disability.

Aid and Attendance or Housebound

A veteran who is determined by VA to be in need of the regular aid and attendance of another person, or a veteran who is permanently housebound, may be entitled to additional disability compensation or pension benefits. A veteran evaluated at 30 percent or more disabled is entitled to receive a special allowance for a spouse who is in need of the aid and attendance of another person.

Incarcerated Veterans

VA disability compensation and pension benefits are restricted if a veteran, surviving spouse, child or dependent parent is convicted of a felony and imprisoned for more than 60 days. The disability compensation paid to an incarcerated veteran is limited to the 10 percent disability rate. For a surviving spouse, child, dependent parent or veteran whose disability rating is 10 percent, the payment is reduced by one half. Any amounts not paid may be apportioned to eligible dependents. Payments are not reduced for recipients participating in work-release programs, residing in halfway houses or under community control. Overpayments for failure to notify VA of a veteran's incarceration result in the loss of all financial benefits until the overpayment is recovered.

Fugitive Felons

VA disability compensation and pension benefits may not be paid to any veteran named on an outstanding felony warrant, or their dependents, until the veteran has surrendered to authorities or the warrant is cleared.

Pension

Veterans with low incomes who are permanently and totally disabled, or are age 65 and older, may be eligible for monetary support if they have 90 days or more of active military service, at least one day of which was during a period of war. Generally, veterans who entered active duty on or after Sept. 8, 1980, or officers who entered active duty on or after Oct. 16, 1981, may have to meet a longer minimum

period of active duty. The discharge from active duty must have been under conditions other than dishonorable. The permanent and total disability must be for reasons other than the veteran's own willful misconduct. Payments are made to qualified veterans to bring their total income, including other retirement or Social Security income, to a level set by Congress. Unreimbursed medical expenses may reduce countable income. Veterans of a period of war who are age 65 or older and meet service and income requirements are also eligible to receive a pension, regardless of current physical condition.

Improved Pension

The Improved Pension program provides for the maximum annual rates listed in the "Tables" section of this booklet. The payment is reduced by the amount of the countable income of the veteran and the income of the spouse or dependent children. When a veteran without a spouse or a child is furnished nursing-home or domiciliary care by VA, the pension is reduced to an amount not to exceed \$90 per month after three calendar months of care. The reduction may be delayed if nursing-home care is being continued for the primary purpose of providing the veteran with rehabilitation services.

Protected Pension Programs

Beneficiaries of Old-Law or Section 306 pension who do not wish to elect Improved Pension can continue to receive the pension rate they were receiving on Dec. 31, 1978. This rate generally continues as long as income remains within established limits, net worth does not bar payment, and beneficiaries do not lose dependents. Beneficiaries must continue to meet basic eligibility factors, such as permanent and total disability for veterans, or status as a surviving spouse or child. VA also must adjust rates for other reasons, such as a veteran's hospitalization in a VA facility.

Medal of Honor Pension

VA administers pensions to holders of the Medal of Honor. Congress set the monthly pension at \$1,027 effective Dec. 1, 2004.

Vocational Rehabilitation and Employment

Vocational Rehabilitation and Employment is an employment-oriented program that helps veterans with service-connected disabilities prepare for, find and keep suitable employment.

Suitable employment is work that is within a veterans' physical, mental and emotional capabilities and matches their patterns of skills, talents and interests. For veterans whose disabilities are so severe they cannot currently consider employment, VA helps them attain as much independence in daily living as possible. Additional information is available on the Internet: <http://www.vba.va.gov>.

Eligibility

A veteran must have a VA established service-connected disability rated 10 percent disabling with a serious employment handicap or at least 20 percent with an employment handicap and be discharged or released from military service under other than dishonorable conditions. A servicemember pending medical separation from active duty may apply, but the disability rating must be at least 20 percent.

Services

Depending on an individual's needs, services provided by VA may include:

1. An evaluation of the individual's talents, skills and interests.
2. Employment services such as job-seeking skills, resume development and other work readiness assistance.
3. Assistance getting and keeping suitable employment.
4. Vocational counseling and planning.
5. Training, such as on-the-job and work experience programs.
6. Training, such as certificate, two, or four-year college or technical programs.
7. Supportive rehabilitation services and additional counseling.

VA pays the cost of these services and pays a living allowance to veterans who participate in training.

Entitlement

Eligible veterans are evaluated to determine if they need vocational rehabilitation services to help overcome barriers to employment.

Period of a Rehabilitation Program

Generally, veterans must complete a vocational rehabilitation program within 12 years from their separation from military service or within 12 years from the date VA notifies them that they have a compensable service-connected disability. Depending on the length of program needed, veterans may be provided up to 48 months of full-time services or their part-time equivalent. These limitations may be extended in certain circumstances.

Work-Study

Participants may be paid a work-study allowance if they train at the three-quarter or full-time rate. They may elect to be paid in advance a portion of the allowance equal to 40 percent of the total. Participants under the supervision of a VA employee may provide VA outreach services, prepare and process VA paperwork, and work at a VA medical facility or perform other VA-approved activities.

Children of Vietnam Veterans Born with Certain Birth Defects

Children of Vietnam veterans born with certain birth defects may be eligible for benefits under one of two separate programs—the Spina Bifida Program or the Children of Women Vietnam Veterans Program. Benefits under both programs include a monthly monetary allowance, health care specific to the disability, and vocational training if reasonably feasible. The law defines “child” as the natural child of a Vietnam veteran, regardless of age or marital status. The child must have been conceived after the date on which the veteran first entered the Republic of Vietnam. Qualifying service includes active military, naval or air service, including service in the waters offshore and other locations if the service involved duty or visitation in Vietnam. Questions about either program may be sent via e-mail to: birthdefect@vba.va.gov.

Spina Bifida Program

This program applies to biological children of male and female veterans who served in Vietnam during the period beginning Jan. 9, 1962, and ending May 7, 1975, or who served in or near the Korean demilitarized zone (DMZ) during the period beginning Sept. 1, 1967, and ending Aug. 31, 1971. A monetary allowance is paid at three disability levels based on the neurological manifestations that define the severity of disability: impairment of the functioning of extremities, impairment of bowel or bladder function, and impairment of intellectual functioning.

Children of Women Vietnam Veterans Program

This program applies to biological children of women veterans who served in Vietnam during the period beginning on Feb. 28, 1961, and ending on May 7, 1975. The birth defects covered are those that are associated with a mother's service in Vietnam and that resulted in a permanent physical or mental disability. The covered birth defects do not include conditions due to familial disorders, birth-related injuries, or fetal or neonatal infirmities with well-established causes. A monetary allowance is paid at four disability levels based on the child's degree of permanent disability.

Allowances

The 2005 monthly rates for both programs can be found in the "Tables" section of this booklet. Contact a VA regional office to apply for medical treatment or benefits payments. Note: a monetary allowance paid to an individual under these programs shall not be considered as income or resources in determining eligibility for, or the amount of benefits paid under, any other federal or federally assisted program.

Vocational Training

The Vocational Rehabilitation and Employment Program administers a vocational training program to enable a qualified child to prepare for and attain suitable employment. Services may include counseling and rehabilitative services, education, training and employment services leading to suitable employment. VA pays for these services.

To qualify for a vocational training program, an applicant must be a child:

1. To whom VA has awarded a monthly allowance for spina bifida, or for whom VA has established the existence of another covered birth defect, and
2. For whom VA has determined that achievement of a vocational goal is reasonably feasible.

A vocational training program may not begin before a child's 18th birthday or the date the child completes secondary schooling, whichever comes first. Depending on need and eligibility for VA education benefits, a child may be provided up to 48 months of full-time training.

Education and Training

Education laws are complex. The following is only a summary. Additional information for school officials, veterans and dependents can be found on the Internet at: <http://www.gibill.va.gov> or by calling 1-888-GI-BILL-1 (1-888-442-4551).

Montgomery GI Bill

Eligibility

The Montgomery GI Bill (MGIB) provides education benefits that may be used while on active duty or after separation from active duty. Veterans must receive a fully honorable military discharge for the period of service on which MGIB eligibility is based. Discharges “under honorable conditions” and “general” discharges do not establish eligibility. Veterans who do not receive a qualifying discharge from one period of service may qualify based on a discharge from another qualifying period of service.

All participants must have a high school diploma or equivalency certificate before applying for benefits. Completing 12 hours toward a college degree before applying for benefits also meets this requirement. Under previous law, veterans were required to meet the high school requirement before they completed their initial active duty obligation. Those who did not may now meet the requirement and apply or reapply for benefits. If eligible, they must use their benefits within the following period: (1) 10 years from the date of last discharge from active duty, or (2) by Nov. 2, 2010, whichever is later.

Additionally, every veteran must establish eligibility under one of the following four categories.

Category 1 – Service After June 30, 1985

To be eligible under Category 1, veterans must: have entered active duty for the first time after June 30, 1985, and not have declined MGIB in writing upon entry on to active duty. The military reduces their pay \$100 a month for 12 months of active duty. These pay reductions are not refundable. Eligible servicemembers can use the MGIB benefit while on active duty after completing two continuous years of service. Veterans can use the MGIB benefit if they: completed three continuous years of active duty, or two continuous years of active duty if they first signed up for less than three years or have an obligation to serve four years in the Selected Reserve

(the 2x4 program) and enter the Selected Reserve within one year of release from active duty.

Servicemembers or veterans are barred from eligibility under Category 1, however, if they received a commission as a result of graduation from a service academy or completion of an ROTC scholarship. However, such a commission isn't a bar if the applicant: (1) received a commission after becoming eligible for MGIB benefits (including completing the minimum service requirements for the initial period of active duty); or (2) received a commission after Sept. 30, 1996, and received less than \$3,400 during any one year under ROTC scholarship.

Under Category 1, applicants are also barred from benefits if they declined MGIB because they received repayment from the military for education loans. If they did not decline MGIB and received loan repayments, the months served to repay the loans will be deducted from MGIB entitlement. Individuals who received loan repayments for one period of active duty can still be eligible based on another qualifying period of active duty as long as they did not decline MGIB upon entering active duty.

Early Separation

Veterans who did not complete the required period of service may still be eligible under Category 1 if discharged for one of the following reasons: (1) convenience of the government—with 30 continuous months of service for an obligation of three or more years, or 20 continuous months of service for an obligation of less than three years; (2) service-connected disability; (3) hardship; (4) a medical condition diagnosed prior to joining the service; (5) a condition that interfered with performance of duty and didn't result from misconduct; (6) a reduction in force (in most cases). Servicemembers planning to separate early should ensure their separation reasons are coded properly to avoid disqualification for MGIB benefits.

Category 2 – Vietnam Era GI Bill Conversion

To be eligible under Category 2, veterans must have had remaining entitlement under the Vietnam Era GI Bill on Dec. 31, 1989. Additionally, they must have served on active duty for any number of days during the period Oct. 19, 1984, to June 30, 1985, and served on active duty for at least three continuous years beginning on July 1, 1985; or at least two continuous years active duty beginning

on July 1, 1985, followed by a minimum of four years in the Selected Reserve beginning within one year of release from active duty.

Veterans not on active duty on Oct. 19, 1984, may be eligible under Category 2 if they served three continuous years on active duty at any time beginning on or after July 1, 1985, or two continuous years of active duty at any time followed by four continuous years in the Selected Reserve beginning within one year of release from active duty.

Veterans are barred from eligibility under Category 2 if they received a commission after Dec. 31, 1976, as a result of graduation from a service academy or completion of an ROTC scholarship. However, such a commission isn't a bar if they received the commission after becoming eligible for MGIB benefits, or received the commission after Sept. 30, 1996, and received less than \$3,400 during any one year under ROTC scholarship.

Category 3 – Involuntary Separation/Special Separation

Veterans may be eligible under Category 3 if they meet one of the following requirements: (1) elected MGIB before being involuntarily separated; or (2) were voluntarily separated under the Voluntary Separation Incentive or the Special Separation Benefit program, elected MGIB benefits before being separated, and had military pay reduced by \$1,200 before discharge.

Category 4 – Veterans Educational Assistance Program

Eligibility under Category 4 may be extended to veterans who participated in the Veterans Educational Assistance Program (VEAP) if they: (1) served on active duty on Oct. 9, 1996; (2) participated in VEAP and contributed money to a VEAP account; (3) elected MGIB by Oct. 9, 1997, and paid \$1,200. Veterans who participated in VEAP on or before Oct. 9, 1996, may also be eligible even if they did not deposit money in a VEAP account if they served on active duty from Oct. 9, 1996, through April 1, 2000, elected MGIB by Oct. 31, 2001, and contributed \$2,700 to MGIB.

Certain National Guard servicemembers may also qualify under Category 4 if they: (1) served for the first time on full-time active duty in the National Guard under title 32, U.S.C., between June 30, 1985, and Nov. 29, 1989, and had no previous active duty service; (2) elected MGIB during the nine-month window ending on July 9, 1997; and (3) paid \$1,200.

Period of Eligibility

Eligibility generally expires 10 years after discharge or release from active duty. However, there are exceptions for disability, re-entering active duty, and upgraded discharges.

Payments

For training in college, technical or vocational school, eligible veterans qualify to receive the following monthly rates for full-time training effective Oct. 1, 2004: \$1,004 a month if they qualify for MGIB benefits based on active duty for three continuous years or more or active duty for two continuous years plus four years in the Selected Reserve, or \$816 a month if they qualify for MGIB benefits based on active duty of less than three years. Benefits are reduced for part-time training. Payments for other types of training follow different rules. For complete tables of current benefit rates, visit: <http://www.gibill.va.gov>.

VA will pay an additional amount, commonly called a “kicker” or “college fund” if directed by the Department of Defense. Eligibility is based on occupational specialties and is generally established upon the servicemember’s recruitment into active duty. Servicemembers potentially eligible under Category 1 (or originally eligible under Category 1 but subsequently eligible under Category 3 because of the reason for discharge) can make additional contributions up to \$600 before leaving active duty to receive a higher rate of benefits.

The maximum number of months veterans can receive MGIB benefits is 36 months at the full-time rate or the part-time equivalent. The following groups qualify for the maximum: (1) eligible veterans who served the required length of active duty, (2) eligible veterans with an obligation of three years or more who were separated early for the convenience of the government and served 30 continuous months, (3) eligible veterans with an obligation of less than three years who were separated early for the convenience of the government and served 20 continuous months.

Training Available

The following types of training are available under the Montgomery GI Bill: (1) courses at colleges and universities leading to associate, bachelor or graduate degrees, including accredited independent study, which may be offered through distance education; (2) courses leading to a certificate or diploma from business, technical or vocational schools; (3) apprenticeship or on-the-job training programs for

individuals not on active duty, including self-employment training begun on or after June 16, 2004, necessary for ownership or operation of a franchise; (4) correspondence courses, under certain conditions; (5) flight training, if the veteran holds a private pilot's license upon beginning the training program and meets the medical requirements; (6) state-approved teacher certification programs; (7) preparatory courses necessary for admission to a college or graduate school; (8) licensing and certification tests approved for veterans; and (9) entrepreneurship training courses to create or expand small businesses.

Additional MGIB Benefits

1. Accelerated payment of MGIB benefits is available to those enrolled in certain high-cost programs leading to employment in the technology industry.
2. Transfer of entitlement to dependents is provided by the U.S. Air Force in limited circumstances.
3. Tutorial assistance allowance is available for individual tutoring if training in school at one-half time or more. The maximum benefit is \$1,200 (\$100 per month).
4. Tuition Assistance Top-Up provides for payment to an individual for the difference between the tuition assistance amount paid by the military component and the total cost of tuition and approved charges.

Work-Study

Veterans may be eligible for a work-study program in which they work for VA and receive hourly wages. Veterans must train at the three-quarter or full-time rate. The types of work allowed include:

- (1) outreach services for VA and State Approving Agencies;
- (2) VA paperwork;
- (3) work at national or state veterans' cemeteries;
- (4) work at VA medical centers or state veterans homes; and
- (5) other VA approved activities.

Counseling

VA counseling is available to help MGIB participants assess their educational and vocational strengths and weaknesses. Counseling is also available to help plan education or employment goals. Additionally, individuals not eligible for the MGIB may still receive VA counseling beginning 180 days prior to separation from active duty through the first full year following honorable discharge.

Montgomery GI Bill – Selected Reserve

Eligibility

The Montgomery GI Bill – Selected Reserve provides education benefits to members of the reserve elements of the Army, Navy, Air Force, Marine Corps and Coast Guard, and to members of the Army National Guard and the Air National Guard. To be eligible for this program, a reservist must: (1) incur a six-year obligation to serve in the Selected Reserve signed after June 30, 1985, or, if an officer, agree to serve six years in addition to the original obligation; (2) complete Initial Active Duty for Training; (3) have a high school diploma or equivalency certificate before applying for benefits; and (4) remain in good standing in a Selected Reserve unit.

Reserve components determine eligibility for benefits. VA does not make decisions about eligibility and cannot make payments until the reserve component has determined eligibility and notified VA.

Period of Eligibility

If a reservist separates from the Selected Reserve, benefits generally end the day of separation. If an individual stays in the Selected Reserve, benefits generally end 14 years from the date the reservist became eligible for the program. For reservists who became eligible before Oct. 1, 1992, benefits generally end 10 years from the date they became eligible. Under special circumstances, eligibility may be extended.

Payments

The full-time rate effective Oct. 1, 2004, is \$288 a month for 36 months for full-time training. Part-time benefits are reduced proportionately. For complete current rates, visit: <http://www.gibill.va.gov>. The Department of Defense may make additional contributions, or “kickers,” on behalf of individuals in critical military fields, as deemed necessary to encourage enlistment.

Training Available

Eligible reservists may take undergraduate or technical training at colleges and universities. Those who have a six-year commitment beginning after Sept. 30, 1990, may also take the following training: graduate courses, courses for a certificate or diploma from business, technical or vocational schools; cooperative training; apprenticeship or on-the-job training; correspondence courses; independent study programs; flight training; entrepreneurship training, or remedial, deficiency or refresher courses needed to complete a program of study.

Work-Study

Eligibility for the Work-Study program under the Selected Reserve Montgomery GI Bill is the same as in the Montgomery GI Bill.

Tutorial Assistance

Benefits for tutorial assistance are the same as in the regular Montgomery GI Bill.

Counseling

VA counseling is available to help participants assess their educational and vocational strengths and weaknesses. Counseling is also available to help plan educational or employment goals.

Veterans' Educational Assistance Program (VEAP)

Eligibility

Under VEAP, active duty personnel voluntarily participated in a plan for education or training in which their savings were administered and added to by the federal government. Servicemembers were eligible to enroll in VEAP if they entered active duty for the first time after Dec. 31, 1976, and before July 1, 1985. Some contribution to VEAP must have been made prior to April 1, 1987. The maximum participant contribution is \$2,700. While on active duty, participants may make a lump-sum contribution to their VEAP account.

Servicemembers who participated in VEAP are eligible to receive benefits while on active duty if: (1) at least three months of contributions are available, except for high school or elementary school, in which case only one month is needed; and (2) they enlisted for the first time after Sept. 7, 1980, and completed 24 months of their first period of active duty. Visit <http://www.gibill.va.gov> for length of service requirements for those who enlisted for the first time prior to Sept. 7, 1980.

To use benefits after separation from active duty, veterans must receive a discharge under conditions other than dishonorable for the qualifying period of service.

Veterans who enlisted for the first time after Sept. 7, 1980, or entered active duty as an officer or enlistee after Oct. 16, 1981, must have completed 24 continuous months of active duty, unless they meet a qualifying exception.

Period of Eligibility

Eligibility generally expires 10 years from the date of last discharge or release from active duty. Under special circumstances, the 10-year period may be extended.

Payments

The Department of Defense will match the participant's contribution at the rate of \$2 for every \$1 the individual put into the fund. The Department of Defense may make additional contributions, or "kickers," on behalf of individuals in critical military fields, as deemed necessary to encourage enlistment. For training in college, vocational or technical schools, the amount of money participants receive each month depends on the type and hours of training pursued. The maximum basic rate is \$300 a month for full-time training.

Training Available

VEAP participants may pursue: associate, bachelor or graduate degrees at colleges or universities including accredited independent study, which may be offered through distant education; courses leading to a certificate or diploma from business, technical or vocational schools; apprenticeship or on-the-job training programs; cooperative courses which consist of a full-time program of alternating school instruction and training in business or industry; correspondence courses; flight training; tutorial assistance; refresher, remedial or deficiency courses if needed to complete a program of study; refresher training to update skills for technological advances that occurred while the veteran was on active duty or after separation; and state-approved alternative teacher certification programs. VEAP participants may also receive benefits for approved licensing and certification tests, and for entrepreneurship training.

Work-Study

Eligibility for the Work-Study program under VEAP is the same as under the Montgomery GI Bill.

Tutorial Assistance

Benefits for tutorial assistance are the same as under the Montgomery GI Bill.

Counseling

Eligibility for VA counseling under VEAP is the same as under the Montgomery GI Bill.

Home Loan Guaranties

VA loan guaranties are made to servicemembers, veterans, reservists and unmarried surviving spouses for the purchase of homes, condominiums and manufactured homes, and for refinancing loans. VA guarantees part of the total loan, permitting the purchaser to obtain a mortgage with a competitive interest rate, even without a down payment if the lender agrees. VA requires that a down payment be made for the purchase of a manufactured home. VA also requires a down payment for a home or condominium if the purchase price exceeds the reasonable value of the property or the loan has a graduated payment feature. With a VA guaranty, the lender is protected against loss up to the amount of the guaranty if the borrower fails to repay the loan. A VA loan guaranty can be used to:

1. Buy a home.
2. Buy a residential condominium.
3. Build a home.
4. Repair, alter or improve a home.
5. Refinance an existing home loan.
6. Buy a manufactured home with or without a lot.
7. Buy and improve a manufactured home lot.
8. Install a solar heating or cooling system or other weatherization improvements.
9. Purchase and improve a home simultaneously with energy-efficient improvements.
10. Refinance an existing VA loan to reduce the interest rate and make energy-efficient improvements.
11. Refinance a manufactured home loan to acquire a lot.

Eligibility

Applicants must have a good credit rating, have an income sufficient to support mortgage payments, and agree to live in the property. To obtain a VA Certificate of Eligibility, complete VA Form 26-1880, Request for a Certificate of Eligibility for VA Home Loan Benefits, and mail it to one of the two VA Eligibility Centers (Winston-Salem, N.C., and Los Angeles). In general, those veterans living in the Western part of the country mail their applications to the Los Angeles Eligibility Center, while those living in the Eastern part of the country mail applications to Winston-Salem. Additional information on eligibility and addresses for the Centers is available on VA's loan guaranty eligibility Home page: <http://www.homeloans.va.gov/elig.htm>. Veterans may also have their lenders obtain a Certificate of Eligibility for them

through VA's ACE (Automated Certificate of Eligibility) system. This is an online application that, in some cases, can generate a certificate immediately. Not all cases can be processed through this system but, if all necessary information is available, ACE provides the quickest way to determine eligibility.

Periods of Eligibility

World War II: (1) active duty service after Sept. 15, 1940, and prior to July 26, 1947; (2) discharge under other than dishonorable conditions; and (3) at least 90 days service unless discharged early for a service-connected disability.

Post-World War II: (1) active duty service after July 25, 1947, and prior to June 27, 1950; (2) discharge under other than dishonorable conditions; and (3) 181 days continuous active duty unless discharged early for service-connected disability.

Korean War: (1) active duty after June 26, 1950, and prior to Feb. 1, 1955; (2) discharge under other than dishonorable conditions; and (3) at least 90 days total service, unless discharged early for a service-connected disability.

Post-Korean War: (1) active duty between Jan. 31, 1955, and Aug. 5, 1964; (2) discharge under conditions other than dishonorable; (3) 181 days continuous service, unless discharged early for service-connected disability.

Vietnam: (1) active duty after Aug. 4, 1964, and prior to May 8, 1975; (2) discharge under conditions other than dishonorable; and (3) 90 days total service, unless discharged early for service-connected disability. For veterans who served in the Republic of Vietnam, the beginning date is Feb. 28, 1961.

Post-Vietnam: For veterans whose enlisted service began before Sept. 8, 1980, or whose service as an officer began before Oct. 17, 1981: (1) active duty for 181 continuous days, all of which occurred after May 7, 1975, and discharge under conditions other than dishonorable or early discharge for service-connected disability.

24-Month Rule: If service was between Sept. 8, 1980, (Oct. 16, 1981, for officers) and Aug. 1, 1990, veterans must generally complete 24 months of continuous active duty or the full period (at least 181 days) for which they were called or ordered to active duty,

and be discharged under conditions other than dishonorable. Exceptions are allowed if the veteran completed at least 181 days of active duty but was discharged earlier than 24 months for (1) hardship, (2) the convenience of the government, (3) reduction-in-force, (4) certain medical conditions, or (5) service-connected disability.

Gulf War: Veterans of the Gulf War era, which began Aug. 2, 1990, and will continue until Congress or the President declares it has ended, must generally complete 24 months of continuous active duty or the full period (at least 90 days) for which they were called or ordered to active duty, and be discharged under conditions other than dishonorable. Exceptions are allowed if the veteran completed at least 90 days of active duty but was discharged earlier than 24 months for (1) hardship, (2) the convenience of the government, (3) reduction-in-force, (4) certain medical conditions, or (5) service-connected disability.

Reservists and National Guard members are eligible if they were activated after Aug. 1, 1990, served at least 90 days, and received an honorable discharge.

Active Duty Personnel: Until the Gulf War era is ended by law or Presidential Proclamation, persons on active duty are eligible after serving on continuous active duty for 90 days.

Members of the Selected Reserve: Individuals are eligible if they have completed at least six years of honorable service in the reserves or National Guard or were discharged because of a service-connected disability. Reservists who do not qualify for VA housing loan benefits may be eligible for loans on favorable terms insured by the Federal Housing Administration (FHA) of the Department of Housing and Urban Development (HUD).

Others: Other eligible individuals include unmarried spouses of veterans or reservists who died on active duty or as a result of service-connected causes; surviving spouses who remarry after attaining age 57; spouses of active-duty servicemembers who have been missing in action or a prisoner of war for at least 90 days; U.S. citizens who served in the armed forces of a U.S. ally in World War II; and members of organizations with recognized contributions to the U.S. World War II effort. Eligibility may be determined at the VA Eligibility Centers.

Guaranty Amount

The guaranty amount is the amount of the VA guaranty available to an eligible veteran and may be considered the equivalent of a down payment by lenders. The basic VA guaranty amount is \$36,000. The maximum guaranty amount for purchase or construction loans in excess of \$144,000 is equal to 25 percent of the Freddie Mac conforming loan limit determined under section 305(a)(2) of the Federal Home Loan Mortgage Corporation Act for a single family residence. The amount of entitlement varies with the loan amount. Loan guaranty limits are listed in the “Tables” section of this booklet.

VA does not establish a maximum loan amount. However, no loan for the acquisition of a home may exceed the reasonable value of the property, which is based on an appraiser’s estimate. A buyer, seller, real estate agent or lender can request a VA appraisal by completing VA Form 26-1805, Request for Determination of Reasonable Value. The requester pays for the appraisal, often called a “VA appraisal,” according to a fee schedule approved by VA. This VA appraisal estimates the value of the property, but is not an inspection and does not guarantee that the house is free of defects. VA guarantees the loan, not the condition of the property.

A loan for the purpose of refinancing existing mortgage loans or other liens secured on a dwelling is generally limited to 90 percent of the appraised value of the dwelling. A loan to reduce the interest rate on an existing VA-guaranteed loan, however, can be made for an amount equal to the outstanding balance on the old loan plus closing costs, up to two discount points, and energy-efficient improvements. A loan for the purchase of a manufactured home or lot is limited to 95 percent of the amount that would be subject to finance charges. The VA funding fee and up to \$6,000 in energy-efficient improvements also may be included in the loan.

A veteran who previously obtained a VA loan can use the remaining entitlement for a second purchase. The amount of remaining entitlement is the difference between \$36,000 (25 percent of certain loans as previously described) and the amount of entitlement used on prior loans. Remaining entitlement is not necessary for veterans to refinance an existing VA loan with a new one at a lower interest rate.

Required Occupancy

Veterans must certify that they intend to live in the home they are buying or building with a VA guaranty. A veteran who wishes to refinance or improve a home with a VA guaranty also must certify to

being in occupancy at the time of application. A spouse may certify occupancy if the buyer is on active duty. In refinancing a VA-guaranteed loan solely to reduce the interest rate, veterans need only certify to prior occupancy.

Closing Costs

Payment in cash is required on all home loan closing costs, including title search and recording, hazard insurance premiums, prepaid taxes and a one percent origination fee, which may be required by lenders in lieu of certain other costs. In the case of refinancing loans, all such costs may be included in the loan, as long as the total loan does not exceed 90 percent of the reasonable value of the property. Interest Rate Reduction Refinancing Loans may include closing costs and a maximum of two discount points. Loans, including refinancing loans, are charged a funding fee by VA, except for loans made to disabled veterans and unmarried surviving spouses of veterans who died as a result of service. The VA funding fee is based on the loan amount and, at the discretion of the veteran and the lender, may be included in the loan. Funding fee rates are listed in the "Tables" section of this booklet.

Financing, Interest Rates and Terms

Veterans obtain VA-guaranteed loans through the usual lending institutions, including banks, savings and loan associations, building and loan associations, and mortgage loan companies. Veterans may obtain a loan with a fixed interest rate, which may be negotiated with the lender. Veterans also may obtain an Adjustable Rate Mortgage (ARM) where the interest rate can be adjusted up to one percent annually and up to five percent over the life of the loan. Veterans may choose a hybrid ARM where the initial interest rate remains fixed for three to ten years. If the rate remains fixed for less than five years, the rate adjustment cannot be more than one percent annually and five percent over the life of the loan. For a hybrid ARM with an initial fixed period of five years or more, the initial adjustment may be up to two percent. Adjustments thereafter are limited to one percent annually and six percent over the life of the loan.

If the lender charges discount points on the loan, the veteran may negotiate with the seller as to who will pay points or if they will be split between buyer and seller. Points paid by the veteran may not be included in the loan, except that a maximum of two points may be included in Interest Rate Reduction Refinancing Loans. The loan may be for as long as 30 years and 32 days.

VA does not require that a down payment be made, except in the following instances: (1) a manufactured home or lot loan; (2) a loan with graduated payment features; and (3) to prevent the amount of a loan from exceeding VA's determination of the property's reasonable value. If the sale price exceeds the reasonable value, the veteran must certify that the difference is being paid in cash without supplementary borrowing. A cash down payment of five percent of the purchase price is required for manufactured home or lot loans.

Release of Liability, Loan Assumption

When a veteran sells a home financed through a VA guaranty to a purchaser who assumes the loan, the veteran may request release from liability to the federal government, provided the loan is current, the purchaser has been obligated by contract to purchase the property and assume all of the veteran's liabilities, and VA is satisfied that the purchaser is a good risk. A release of liability does not mean that a veteran's guaranty entitlement is restored. If the new veteran-buyer agrees to substitute entitlement for that of the veteran-seller, entitlement may be restored to the veteran-seller.

A VA loan for which a commitment was made on or after March 1, 1988, is not assumable without approval of VA or its authorized agent. The person who assumes a VA loan for which a commitment was made on or after that date must pay a fee to VA. If a person disposes of the property securing a VA-guaranteed loan for which a commitment was made after March 1, 1988, without first notifying the holder of the loan, the holder may demand immediate and full payment of the loan. Veterans whose loans were closed after Dec. 31, 1989, have no liability to the government following a foreclosure, except in cases involving fraud, misrepresentation or bad faith.

Loans for Native American Veterans

VA direct home loans are available to eligible Native American veterans who wish to purchase, construct or improve a home on Native American trust land. These loans may be used to simultaneously purchase and improve a home. Direct loans also are available to reduce the interest rate on existing loans obtained under this program. VA direct loans may be limited to the cost of the home or \$80,000, whichever is less. A funding fee must be paid to VA. The fee is 1.25 percent for loans to purchase, construct or improve a home. For loans to refinance an existing loan, the fee is 0.5 percent of the loan amount. Veterans receiving compensation for service-connected disability are not required to pay the funding fee. The funding fee

may be paid in cash or included in the loan. The following may not be included in the loan: VA appraisal, credit report, loan processing fee, title search, title insurance, recording fees, transfer taxes, survey charges or hazard insurance.

Reposessed Homes

VA acquires properties as a result of foreclosures on VA guaranteed loans. These properties are marketed through a property management services contract with Ocwen Federal Bank, and listed by local agents through the Multi-Listings System. A listing of properties for sale may be obtained on the Internet: <http://www.ocwen.com>. Contact a real estate agent for information on purchasing a VA acquired property.

Safeguards for Veterans

The following home loan guaranty safeguards have been established to protect veterans:

1. Homes completed less than a year before purchase with VA financing and inspected during construction by either VA or HUD must meet VA requirements.

2. VA may suspend from the loan program those who take unfair advantage of veteran borrowers or decline to sell a new home or make a loan because of race, color, religion, sex, disability, family status or national origin.

3. The builder of a new home is required to give the purchasing veteran a one-year warranty that the home has been constructed to VA-approved plans and specifications. A similar warranty must be given for new manufactured homes.

4. In cases of new construction completed under VA or HUD inspection, VA may pay or otherwise compensate a veteran borrower for correction of structural defects seriously affecting livability if assistance is requested within four years of a home loan guaranty.

5. The borrower obtaining a loan may only be charged the fees and other charges prescribed by VA as allowable.

6. The borrower can prepay without penalty the entire loan or any part not less than the amount of one installment or \$100.

7. VA encourages holders to extend forbearance if a borrower becomes temporarily unable to meet the terms of the loan.

Life Insurance

There are currently eight VA life insurance programs. Only four of these programs are currently open to new issues. Two of those open to new issues, the Service-Disabled Veterans Insurance and Veterans' Mortgage Life Insurance programs, are specifically designed for disabled veterans. The other two "open" programs, Servicemembers' Group Life Insurance (SGLI) and Veterans' Group Life Insurance (VGLI), are administered by the Office of Servicemembers' Group Life Insurance (290 W. Mt. Pleasant Ave., Livingston, NJ 07039-2747, phone 1-800-419-1473) under the supervision of VA.

Servicemembers' Group Life Insurance

The following are automatically insured for \$250,000 under SGLI: active-duty members of the Army, Navy, Air Force, Marines and Coast Guard; commissioned members of the National Oceanic and Atmospheric Administration and the Public Health Service; cadets or midshipmen of the service academies; members, cadets and midshipmen of the ROTC while engaged in authorized training; members of the Ready Reserves; and members who volunteer for assignment to a mobilization category in the Individual Ready Reserve or Inactive National Guard. Individuals may elect to be covered for a lesser amount or not to be covered at all. Part-time coverage may be provided to members of the reserves who do not qualify for full-time coverage. Premiums are deducted automatically from an individual's pay or are collected by the individual's service branch. At the time of separation from service, SGLI can be converted to either VGLI or a commercial permanent plan through participating companies. SGLI coverage continues for 120 days after separation at no charge.

Family Servicemembers' Group Life Insurance

Family Servicemembers' Group Life Insurance (FSGLI) is essentially a rider to SGLI. It provides up to \$100,000 of life insurance coverage for spouses, not to exceed the amount of SGLI the insured member has in force, and automatically provides \$10,000 for dependent children of members insured under the SGLI program with no premium required. FSGLI is a servicemembers' benefit, and the member pays the premium and is the beneficiary of the policy. If a servicemember drops his or her SGLI coverage or leaves the military, the spouse's policy can be converted to a private life insurance policy within 120 days of the date the servicemember's SGLI coverage ended.

Veterans' Group Life Insurance

SGLI may be converted to Veterans' Group Life Insurance (VGLI), which provides renewable five-year term coverage. VGLI is available to: (a) individuals with full-time SGLI coverage upon release from active duty or the reserves; (b) individuals with part-time SGLI coverage who incur a disability or aggravate a pre-existing disability during a reserve period which renders them uninsurable at standard premium rates; and (c) members of the Individual Ready Reserve and Inactive National Guard.

Individuals who separate from service with SGLI coverage can convert to VGLI by submitting an application and the initial premium within 120 days of separating. After 120 days, the individual may still be granted VGLI provided an application, initial premium and evidence of insurability are submitted within one year of termination of SGLI coverage. Servicemembers who are totally disabled at the time of separation are eligible for the SGLI Disability Extension of up to one year. The extension of coverage is free and continues for one year from separation or until the veteran is no longer disabled, whichever comes first. In cases where SGLI coverage is continued under the SGLI Disability Extension provision, VGLI coverage will automatically be issued at the end of the SGLI coverage period subject only to the payment of premiums. VGLI is convertible at any time to a permanent plan policy with any of the commercial insurance companies that participate in the program.

Accelerated Death Benefits for SGLI, FSGLI and VGLI

A member insured under SGLI or VGLI, if terminally ill (prognosis of nine months or less to live), may elect to receive up to 50 percent of the coverage amount in advance. Servicemembers with FSGLI coverage may also elect to receive up to 50 percent of their spouse's coverage if the spouse becomes terminally ill.

Service-Disabled Veterans Insurance

A veteran who was discharged from service under other than dishonorable conditions and who has a service-connected disability but is otherwise in good health may apply to VA for up to \$10,000 in life insurance coverage within two years from the date of the award of service connection. This insurance is limited to veterans who left service on or after April 24, 1951. Veterans who are totally disabled may apply for a waiver of premiums. For those veterans who are eligible for this waiver, additional supplemental coverage of up to \$20,000 is available. However, premiums cannot be waived on the additional insurance. To be eligible for this type of supplemental insurance,

veterans must meet all of the following four requirements: (1) have an RH policy, (2) be under age 65, (3) meet the requirements for total disability, and (4) apply for this additional insurance within one year from the date of notification of having met total disability requirements.

Veterans' Mortgage Life Insurance

VMLI is available to severely disabled veterans who have been approved for a Specially Adapted Housing Grant. Maximum coverage is \$90,000, and is only payable to the mortgage company. Protection is issued automatically provided the veteran submits information required to establish a premium and does not decline coverage. Coverage automatically terminates when the mortgage is satisfied. If a mortgage is disposed of through sale of the property, VMLI may be obtained on the mortgage of another home.

Insurance Dividends

Active government life insurance policies beginning with the letters V, RS, W, J, JR, JS or K automatically pay dividends annually on the policy anniversary date. Policyholders do not need to apply for these dividends, but may select from a number of options for how they should be handled. VA insurance dividends, and interest on dividends left on deposit or credit with VA, are not taxable. For more information, visit the VA Life Insurance Program Web page: <http://www.insurance.va.gov> or contact the VA Insurance Center at 1-800-669-8477. Many policyholders may access their own policy information online at the VA Insurance Web site above.

Policyholders with National Service Life Insurance, Veterans Special Life Insurance and Veterans Reopened Insurance can use their dividends to purchase additional paid-up coverage only at the time the dividend is issued.

Persistent rumors about special SGLI or VGLI dividends and dividends for holders of lapsed policies are not true.

Miscellaneous Insurance Information

Reinstating Lapsed Insurance: Lapsed term policies may be reinstated within five years from the date of lapse. Contact the VA Insurance Center for details. A five-year term policy that is not lapsed at the end of the term period is automatically renewed for an additional five-year period. Lapsed permanent plan policies may be reinstated within certain time limits and with certain health requirements. Reinstated policies require repayment of all back premiums, plus interest.

Converting Term Policies: A term policy that is in force may be converted to a permanent plan. Upon reaching renewal at age 70 or older, National Service Life Insurance term policies on total disability premium waiver are automatically converted to permanent insurance, which provides cash and loan values and higher dividends.

Paid-up Insurance Available on Term Policies: Effective September 2000, VA provides paid-up insurance on term policies whose premiums have been capped. Prior to this date, reserves were not available on terminated term policies. Veterans who have NSLI term insurance (renewal age 71 or older) and decide to stop paying premiums on their policies will be given a termination dividend. This dividend will be used to purchase a reduced amount of paid-up insurance, which insures the veteran for life and no premium payments are required. The amount of insurance remains level.

Disability Provisions: National Service Life Insurance policyholders who become totally disabled before age 65 should consult VA about premium waivers.

Borrowing on Policies: Policyholders may borrow up to 94 percent of the cash surrender value of their insurance. Interest on policy loans is compounded annually. The current interest rate may be obtained by calling toll-free 1-800-669-8477.

For additional information about government life insurance, visit the VA Internet site: <http://www.insurance.va.gov> or call toll-free 1-800-669-8477. Specialists are available between the hours of 8:30 a.m. and 6 p.m., Eastern Time, to discuss premium payments, insurance dividends, address changes, policy loans, naming beneficiaries and reporting the death of the insured. After hours, a caller may leave a recorded message, which will be answered on the next workday, or may use the Interactive Voice Response system.

If the insurance policy number is not known, send whatever information is available, such as the veteran's VA file number, date of birth, Social Security number, military serial number or military service branch and dates of service to:

Department of Veterans Affairs
Regional Office and Insurance Center
Box 42954
Philadelphia, PA 19101

Burial Benefits

Eligibility

Veterans discharged under conditions other than dishonorable and servicemembers who die while on active duty may be eligible for the following burial benefits: (1) burial in a national cemetery; (2) government-furnished headstone or marker; (3) Presidential Memorial Certificate; (4) burial flag; and in some cases, (5) reimbursement of a portion of burial expenses. With certain exceptions, service beginning after Sept. 7, 1980, as an enlisted person, and after Oct. 16, 1981, as an officer, must be for a minimum of 24 consecutive months or the full period for which the person was called to active duty. Reservists and National Guard members are eligible if they were entitled to retired pay at the time of death, or would have been entitled had they not been under the age of 60.

Certain Filipino veterans of World War II, to include those who served in the Philippine Commonwealth Army (USAFFE) or recognized guerrilla forces and New Philippine Scouts, may be eligible if the veteran, at the time of death, was a citizen of the United States or an alien lawfully admitted for permanent residence in the United States.

Persons convicted of a federal or state capital crime, and sentenced to death or life imprisonment without parole, are barred from receiving burial benefits. For additional information on burial benefits, call the nearest national cemetery or 1-800-827-1000, or visit: <http://www.cem.va.gov/>.

Burial in VA National Cemeteries

VA provides veterans and dependents several gravesite options for burial, though choices are limited to those available at a specific cemetery. These may include a full casket burial, or columbarium or in-ground niche for cremated remains. A limited number of national cemeteries also provide a scatter garden for cremated remains.

The funeral director or the next of kin makes interment arrangements for an eligible veteran or dependent at the time of need by contacting the national cemetery in which burial is desired. VA normally does not conduct burials on weekends. However, weekend callers will be directed to a national cemetery that can schedule burials for the following week. Gravesites in national cemeteries cannot be reserved, however VA will honor reservations made under previous programs.

See the VA Facilities section of this book to locate a national cemetery.

Spouses and dependent children of eligible veterans and service-members also may be buried in a national cemetery. If the surviving spouse of an eligible veteran remarries, and that marriage is terminated by death or dissolved by annulment or divorce, the surviving spouse is eligible for burial in a national cemetery. The surviving spouse need not be unmarried at the time of death to retain eligibility, if the date of death is on or after Jan. 1, 2000. Burial of dependent children is limited to unmarried children under 21 years of age, or under 23 years of age if pursuing a full-time course of instruction at an approved educational institution. Unmarried adult children who became physically or mentally disabled and incapable of self-support before reaching the age of 21, or 23 if a full-time student, also are eligible for burial.

Headstones and Markers

Flat bronze, granite or marble markers and upright granite or marble headstones are available. In national cemeteries, the style chosen must be consistent with existing monuments at the place of burial. Niche markers are available to mark columbaria used for inurnment of cremated remains. Government-furnished headstones and markers must be inscribed with the name of the deceased, branch of service, and the year of birth and death. They also may be inscribed with other markings, including an authorized emblem of belief and, space permitting, additional text including military grade, rate or rank; war service such as "World War II;" complete dates of birth and death; military awards; military organizations; civilian or veteran affiliations; and words of endearment. When burial or memorialization is in a national, state or military veterans cemetery, the headstone or marker must be ordered through cemetery officials. To apply or obtain specific information on available styles, contact the cemetery where the headstone or marker is to be placed.

When burial occurs in a private cemetery, an application for a government-furnished headstone or marker must be made to VA. The government will ship the headstone or marker free of charge, but will not pay for its placement. Headstones and markers previously provided by the government may be replaced at government expense if badly deteriorated, illegible, vandalized or stolen. Eligible veterans and servicemembers buried in private cemeteries, whose deaths occurred on or after Sept. 11, 2001, may receive a govern-

ment-furnished headstone or marker regardless of whether the grave is already marked with a non-government memorial.

To apply, mail a completed VA Form 40-1330, Application for Standard Government Headstone or Marker for Installation in a Private or State Veterans Cemetery, along with a copy of the veteran's military service discharge document to Memorial Programs Service (402E), Department of Veterans Affairs, 810 Vermont Avenue, NW, Washington, DC, 20420-0001. Or fax documents to 1-800-455-7143. Do not send original discharge documents because they will not be returned. For information and application instructions, visit: <http://www.cem.va.gov>.

VA also provides memorial headstones and markers, bearing the inscription "In Memory of" as their first line, to memorialize eligible veterans and servicemembers whose remains were not recovered or identified, were buried at sea, donated to science or cremated and scattered. Eligible dependents may be memorialized only in national or state veterans cemeteries. To be memorialized, dependents do not need to outlive the veteran from whom their eligibility is based. Memorial headstones or markers must be placed in national, state veterans, local or private cemeteries. VA supplies and ships memorial headstones and markers free of charge, but does not pay for their plots or placement. To check the status of an application for headstone or marker, call 1-800-697-6947.

Presidential Memorial Certificates

Certificates signed by the president are issued upon request to recognize the military service of honorably discharged deceased veterans. Next of kin, other relatives and friends may request them in person at any VA regional office or by mail: Presidential Memorial Certificates, Department of Veterans Affairs, 5109 Russell Rd., Quantico, VA 22143-3909. There is no pre-printed form to complete or time limit for requesting a certificate(s), but requests should include a copy, not the original, of the deceased veteran's discharge document and clearly indicate to what address the certificate(s) should be sent. Additional information and a sample certificate can be found on the Internet: <http://www.cem.va.gov/pmc.htm>.

Burial Flags

VA will furnish a United States burial flag for memorialization of:

(1) Veterans who served during wartime, or served after Jan. 31, 1955.

(2) Veterans who were entitled to retired pay for service in the reserves, or would have been entitled to such pay but not for being under 60 years of age.

(3) Members or former members of the Selected Reserve who served at least one enlistment or, in the case of an officer, the period of initial obligation, or were discharged for disability incurred or aggravated in line of duty, or died while a member of the Selected Reserve.

Reimbursement of Burial Expenses

VA will pay a burial allowance up to \$2,000 if the veteran's death is service-connected. In some instances, VA also will pay the cost of transporting the remains of a service-disabled veteran to the national cemetery nearest the home of the deceased that has available gravesites. In such cases, the person who bore the veteran's burial expenses may claim reimbursement from VA. There is no time limit for filing reimbursement claims in service-connected death cases.

VA will pay a \$300 burial and funeral expense allowance for veterans who, at time of death, were entitled to receive pension or compensation or would have been entitled to compensation but for receipt of military retirement pay. Eligibility also may be established when death occurs in a VA facility, a nursing home under VA contract or a state veterans nursing home. Additional costs of transportation of the remains may be paid. In nonservice-connected death cases, claims must be filed within two years after permanent burial or cremation.

VA will pay a \$300 plot allowance when a veteran is not buried in a cemetery that is under U.S. government jurisdiction under the following circumstances: the veteran was discharged from active duty because of disability incurred or aggravated in the line of duty; the veteran was in receipt of compensation or pension or would have been except for receiving military retired pay; or the veteran died in a VA facility.

The \$300 plot allowance may be paid to the state if a veteran is buried without charge for the cost of a plot or interment in a state-owned cemetery reserved solely for veteran burials. Burial expenses paid by the deceased's employer or a state agency will not be reimbursed.

Military Funeral Honors

Upon request, the Department of Defense will provide military funeral honors for the burial of military members and eligible veterans.

A basic military funeral honors ceremony consists of the folding and presentation of the United States flag and the playing of Taps by a bugler, if available, or by electronic recording. A funeral honors detail to perform this ceremony consists of two or more uniformed members of the armed forces, with at least one member from the service in which the deceased veteran served.

The Department of Defense maintains a toll-free telephone line (1-877-MIL-HONR) for use by funeral directors only to request honors. Family members should inform their funeral directors if they desire military funeral honors for a veteran. VA national cemetery staff can help arrange for honors during burials at VA national cemeteries. Veterans service organizations or volunteer groups may help provide honors. For more information, visit the military funeral honors Web page: <http://www.militaryfuneralhonors.osd.mil>.

Veterans' Cemeteries Administered by Other Agencies

Arlington National Cemetery: The Department of the Army administers Arlington National Cemetery. Eligibility for burial is more restrictive than at VA national cemeteries. Information may be found on the Internet <http://www.arlingtoncemetery.org/> or by writing to Superintendent, Arlington National Cemetery, Arlington, VA 22211, or calling 703-607-8585.

Department of the Interior: The Department of the Interior administers two active national cemeteries: Andersonville National Cemetery in Georgia and Andrew Johnson National Cemetery in Tennessee. Eligibility for burial is similar to VA cemetery eligibility.

State Veterans Cemeteries: Individual states operate cemeteries for veterans. Eligibility requirements may differ from those for national cemeteries. Contact the state cemetery or state veterans affairs office for additional information. To locate a state veterans cemetery, visit the Internet: <http://www.cem.va.gov/lsvc.htm>.

Survivor Benefits

Dependency and Indemnity Compensation (DIC)

Dependency and Indemnity Compensation (DIC) may be available for surviving spouses who have not remarried, surviving spouses who remarry after attaining age 57, unmarried children under 18, helpless children, those between 18 and 23 if attending a VA-approved school, and low-income parents of deceased servicemembers or veterans. For survivors to be eligible, the deceased veteran must have died from: (1) a disease or injury incurred or aggravated while on active duty or active duty for training; (2) an injury incurred or aggravated in line of duty while on inactive duty training; or (3) a disability compensable by VA. Death cannot be the result of the veteran's willful misconduct. If a spouse remarries, eligibility for benefits may be restored if the marriage is terminated later by death, annulment or divorce.

DIC also may be authorized for survivors of veterans who at the time of death, were determined to be totally disabled as a result of military service, even though their service-connected disabilities did not cause their deaths. The survivor qualifies if: (1) the veteran was continuously rated totally disabled for a period of 10 or more years immediately preceding death; (2) the veteran was so rated for a period of at least five years from the date of military discharge; or (3) the veteran was a former prisoner of war who died after Sept. 30, 1999, and who was continuously rated totally disabled for a period of at least one year immediately preceding death. Payments are subject to offset by any amount received from judicial proceedings brought on account of the veteran's death. The discharge must have been under conditions other than dishonorable.

DIC Payments to Surviving Spouse

Surviving spouses of veterans who died on or after Jan. 1, 1993, receive \$993 a month. For a spouse entitled to DIC based on the veteran's death prior to Jan. 1, 1993, the amount paid is \$993 or an amount based on the veteran's pay grade. See the "Tables" section of this booklet for more information.

In addition to the basic rate, \$250 per month is payable to a surviving spouse who has a minor child or children. This benefit is payable for the initial two years of entitlement to DIC or until the last minor child is removed from the benefit, if earlier than two years. This transitional

benefit is payable for all original DIC awards commencing on or after Jan. 1, 2005. Surviving spouses awarded DIC from Feb. 1, 2003, through Dec. 31, 2004, are entitled to that portion of the two-year period that remains as of Jan. 1, 2005.

DIC Payments to Parents and Children

The monthly payment for parents of deceased veterans depends upon their income. There are additional DIC payments for dependent children. A child may be eligible if there is no surviving spouse, and the child is unmarried and under age 18, or if the child is between the ages of 18 and 23 and attending school. See the "Tables" section of this booklet for more information on DIC for children.

Special Allowances

Surviving spouses and parents receiving DIC may be granted a special allowance to pay for aid and attendance of another person if they are patients in a nursing home or require the regular assistance of another person. Surviving spouses receiving DIC may be granted a special allowance if they are permanently housebound. Current allowances are listed in the "Tables" section of this booklet.

Restored Entitlement Program for Survivors

Survivors of veterans who died of service-connected causes incurred or aggravated prior to Aug. 13, 1981, may be eligible for a special benefit. This benefit is similar to the benefit for students and surviving spouses with children between ages 16 and 18 that was eliminated from the Social Security benefit program. The benefit is payable in addition to any other benefits to which the family may be entitled. The amount of the benefit is based on information provided by the Social Security Administration.

Death Pension

Pension based on need is available for surviving spouses and unmarried children of deceased veterans with wartime service. Spouses must not have remarried and children must be under age 18, or under age 23 if attending a VA-approved school. Pension is not payable to those with estates large enough to provide maintenance. The veteran must have been discharged under conditions other than dishonorable and must have had 90 days or more of active military service, at least one day of which was during a period of war, or a service-connected disability justifying discharge for disability. If the veteran died in service but not in the line of duty, pension may be payable if the veteran had completed at least two years of honorable service. Children who become incapable of self-support because of

a disability before age 18 may be eligible for a pension as long as the condition exists, unless the child marries or the child's income exceeds the applicable limit. A surviving spouse may be entitled to higher income limitations or additional benefits if living in a nursing home, in need of the aid and attendance of another person or permanently housebound.

The Improved Pension Program provides a monthly payment to bring an eligible person's income to a support level established by law. The payment is reduced by the annual income from other sources such as Social Security paid to the surviving spouse or dependent children. Medical expenses may be deducted from the income ceiling. Pension is not payable to those who have assets that can be used to provide adequate maintenance. Maximum rates for the Improved Death Pension are shown in the "Tables" section of this booklet.

Home Loan Guaranties

A VA loan guaranty to acquire a home may be available to an unmarried spouse of a veteran or servicemember who died as a result of service-connected disabilities, a surviving spouse who remarries after attaining age 57, or to a spouse of a servicemember who has been officially listed as missing in action or as a prisoner of war for more than 90 days. Spouses of those listed as prisoners of war or missing in action are limited to one loan.

Dependents Educational Assistance

Dependents Educational Assistance benefits are available to spouses who have not remarried and children of: (1) veterans who died or are permanently and totally disabled as the result of a disability arising from active military service; (2) veterans who died from any cause while rated permanently and totally disabled from service-connected disability; (3) servicemembers listed for more than 90 days as currently missing in action or captured in line of duty by a hostile force; (4) servicemembers listed for more than 90 days as currently detained or interned by a foreign government or power.

The termination of a surviving spouse's remarriage — either by death or divorce — will reinstate Dependents' Educational Assistance benefits to the surviving spouse. If a surviving spouse ceases living with another person who has been held out publicly as the person's spouse, there is no bar to granting Dependents Educational Assistance benefits to the surviving spouse.

Benefits may be awarded for pursuit of associate, bachelor or graduate degrees at colleges and universities, including independent study, cooperative training and study abroad programs. Courses leading to a certificate or diploma from business, technical or vocational schools also may be taken.

Benefits may be awarded for apprenticeships, on-the-job training programs and farm cooperative courses. Benefits for correspondence courses under certain conditions are available to spouses only. Secondary-school programs may be pursued if the individual is not a high-school graduate. An individual with a deficiency in a subject may receive tutorial assistance benefits if enrolled halftime or more. Deficiency, refresher and other training also may be available.

Monthly Payments

Payments are made monthly. The rate effective Oct. 1, 2004, is \$803 a month for full-time school attendance, with lesser amounts for part-time training. A person may receive educational assistance for full-time training for up to 45 months or the equivalent in part-time training. Payments to a spouse end 10 years from the date the individual is found eligible or from the date of the death of the veteran. VA may grant an extension. Children generally must be between the ages of 18 and 26 to receive education benefits, though extensions may be granted.

Work-Study

Participants in the work-study program must train at the three-quarter or full-time rate. They may be paid in advance 40 percent of the amount specified in the work-study agreement or an amount equal to 50 times the applicable hourly minimum wage, whichever is less. Under the supervision of a VA employee, participants may provide outreach services, prepare and process VA paperwork, work at a VA medical facility, or perform other approved activities. They also may help at national or state veterans' cemeteries or assist in outreach services furnished by State Approving Agencies.

Counseling Services

VA may provide counseling services to help an eligible dependent pursue an educational or vocational objective.

Special Benefits

An eligible child over age 14 with a physical or mental disability that impairs pursuit of an educational program may receive special restorative training to lessen or overcome that impairment. This

training may include speech and voice correction, language retraining, lip reading, auditory training, Braille reading and writing, and similar programs. Certain disabled or surviving spouses are also eligible for special restorative training. Specialized vocational training also is available to an eligible spouse or child over age 14 who is handicapped by a physical or mental disability that prevents pursuit of an educational program.

Montgomery GI Bill Death Benefit

VA will pay a special Montgomery GI Bill death benefit to a designated survivor in the event of the service-connected death of an individual while on active duty or within one year after discharge or release. The deceased must either have been entitled to educational assistance under the Montgomery GI Bill program or a participant in the program who would have been so entitled but for the high school diploma or length-of-service requirement. The amount paid will be equal to the participant's actual military pay reduction, less any education benefits paid.

Women Veterans

Women veterans are eligible for the same VA benefits as male veterans. However, additional gender-specific services and benefits are available for women veterans, including breast and pelvic examinations and other general reproductive health care services. VA provides preventive health care counseling, contraceptive services, menopause management, Pap smears and mammography. Referrals are made for services that VA is unable to provide. Women Veterans' Program Managers are available in a private setting at all VA facilities to assist women veterans seeking treatment and benefits.

VA health care professionals provide counseling and treatment to help veterans overcome psychological trauma resulting from sexual trauma that occurred while serving on active duty. Appropriate care and services are provided for any injury, illness or psychological condition resulting from such trauma.

Homeless Veterans

A number of VA benefits, including disability compensation, pension and education benefits, can prevent at-risk veterans from becoming homeless. VA conducts community-based “stand downs” to make benefits information and assistance more accessible to homeless veterans. Homeless veterans also are provided special assistance through other VA program initiatives.

VA provides health and rehabilitation programs for eligible homeless veterans. Health Care for Homeless Veterans programs provide outreach and comprehensive medical, psychological and rehabilitation treatment programs. Domiciliary Care for Homeless Veterans programs provide residential rehabilitation services. VA supports Compensated Work Therapy/Therapeutic Residence group homes, special daytime, drop-in centers, and Comprehensive Homeless Centers.

VA's Homeless Providers Grant and Per Diem Program assists nonprofit and local government agencies to establish housing or service centers for homeless veterans. Grants are awarded for the construction, acquisition or renovation of facilities. VA also works with the Department of Housing and Urban Development, the Social Security Administration, veterans service organizations, and community nonprofit groups to assist homeless veterans. For information on benefits for homeless veterans, contact the nearest VA facility. More information about this program, including information about VA loan guarantees for construction or rehabilitation of multifamily transitional housing for homeless veterans, can be found on the Internet at: <http://www.va.gov/homeless/>.

The Homeless Veterans' Reintegration Program (HVRP), sponsored by the Dept. of Labor's Veterans Employment and Training Service (VETS), focuses on the provision of employment and training services for homeless veterans to enable their successful reintegration into the workforce. Organizations receiving HVRP grants, including faith-based organizations, typically provide job search, counseling, job placement assistance, remedial education, classroom and on-the-job training. A list of current HVRP grantees is located on the Internet: <http://www.dol.gov/vets/grants/main.htm>. For additional information, contact VETS: <http://www.dol.gov/vets/aboutvets/contacts/main.htm> or call 202-693-4700.

Overseas Benefits

Medical Benefits

VA will pay for medical services for the treatment of service-connected disabilities and related conditions or for medical services needed as part of a vocational rehabilitation program for veterans living or traveling outside the United States. Before using the program, veterans living in the Philippines should register with the U.S. VA office in Pasay City, phone 011-632-833-4566. All other veterans living or planning to travel outside the U.S. should register with the Denver Foreign Medical Program office, P.O. Box 65021, Denver, CO 80206-9021, USA, phone 303-331-7590. Veterans living or traveling in Germany, Panama, Australia, Italy, United Kingdom, Japan and Spain can call toll free 877-345-8179. Veterans in Mexico or Costa Rico can use the same number but must first dial the United States country code.

Other Overseas Benefits

VA monetary benefits, including compensation, pension, educational assistance and burial allowances, generally are payable overseas. Some programs in foreign jurisdictions are restricted. Home-loan guaranties are available only in the United States and selected U.S. territories and possessions. Educational benefits are limited to approved degree-granting programs in institutions of higher learning. Beneficiaries residing in foreign countries should contact the nearest American embassy or consulate for information and claims assistance. In Canada, veterans should contact an office of Veterans Affairs Canada. Additional information on benefits and services available outside the United States can be found on the Internet: (<http://www.vba.va.gov/bln/21/foreign/index.htm>).

Small and Disadvantaged Businesses

VA's Office of Small and Disadvantaged Business Utilization helps small businesses obtain information on acquisition opportunities with VA. Like other federal offices, VA is required to place a portion of its contracts and purchases with small and disadvantaged businesses. For information, write the U.S. Department of Veterans Affairs (OOSB), 810 Vermont Avenue, N.W., Washington, D.C. 20420-0001, call toll-free 1-800-949-8387 or visit: <http://www.va.gov/osdbu>.

The Center for Veterans Enterprise (CVE) helps veterans interested in forming or expanding small businesses. The CVE helps VA contracting offices identify veteran-owned small businesses and works with the Small Business Administration's Veterans Business Development Officers and Small Business Development Centers nationwide regarding veterans' business financing, management and technical assistance needs. For more information, write the U.S. Department of Veterans Affairs (OOVE), 810 Vermont Avenue, N.W., Washington, D.C. 20420-0001, call toll-free 1-866-584-2344 or visit the Web site: <http://www.vetbiz.gov>.

Appeals

Veterans and other claimants for VA benefits have the right to appeal decisions made by a VA regional office or medical center. Typical issues appealed are disability compensation, pension, education benefits, recovery of overpayments, and reimbursement for medical services that were not authorized.

A claimant has one year from the date of the notification of a VA decision to file an appeal. The first step in the appeal process is for a claimant to file a written notice of disagreement with the VA regional office or medical center that made the decision. This is a written statement that a claimant disagrees with VA's decision. Following receipt of the written notice, VA will furnish the claimant a "Statement of the Case" describing what facts, laws and regulations were used in deciding the case. To complete the request for appeal, the claimant must file a "Substantive Appeal" within 60 days of the mailing of the Statement of the Case, or within one year from the date VA mailed its decision, whichever period ends later.

Board of Veterans' Appeals

The Board of Veterans' Appeals, located in Washington, D.C., makes decisions on appeals on behalf of the Secretary of Veterans Affairs. Although it is not required, a veterans service organization, an agent or an attorney may represent a claimant. Appellants may present their case in person to a member of the Board at a hearing in Washington, D.C., at a VA regional office or by videoconference.

The texts of appeal decisions made by the Board, as well as a plain-language pamphlet, "Understanding the Appeal Process," can be found on the Internet: <http://www.va.gov/vbs/bva>. This pamphlet

may also be requested by writing to Hearings and Transcription Unit (0141A), Board of Veterans' Appeals, 810 Vermont Avenue, NW, Washington, DC 20420.

U.S. Court of Appeals for Veterans Claims

A final Board of Veterans' Appeals decision that does not grant a claimant the benefits desired may be appealed to the U.S. Court of Appeals for Veterans Claims, an independent court, not part of the Department of Veterans Affairs.

Notice of an appeal must be received by the court with a postmark that is within 120 days after the date — stamped on the decision — on which the Board of Veterans' Appeals mailed its decision. The court reviews the record considered by the Board of Veterans' Appeals. It does not hold trials or receive new evidence. Appellants may represent themselves before the court or have lawyers or approved agents as representatives. Oral argument is held only at the direction of the court. Either party may appeal a decision of the court to the U.S. Court of Appeals for the Federal Circuit and may seek review in the Supreme Court of the United States.

The court's Web site (<http://www.vetapp.gov>) contains its published decisions, case status information, rules and procedures, and other special announcements. The court's decisions can also be found in West's Veterans Appeals Reporter, and on the Westlaw and LEXIS online services. For other questions, write to the Clerk of the Court, 625 Indiana Ave. NW, Suite 900, Washington, DC 20004, or call the clerk's office at 202-501-5970.

Workplace Benefits

Some benefits for veterans and their dependents are administered by agencies other than the Department of Veterans Affairs. The following information describes these benefits and how to apply for them.

Unemployment Compensation

Weekly unemployment compensation may be paid to discharged servicemembers for a limited period of time. The amount and duration of payments are determined by individual states. To apply, veterans who do not begin civilian employment immediately after leaving military service should contact their nearest state employment office and present a copy of their military discharge, Form DD-214.

Transition Assistance Program

The Transition Assistance Program is available to servicemembers and their spouses who are scheduled for separation from active duty. The program, a joint effort by the Departments of Defense, Labor, Homeland Security and Veterans Affairs, provides employment and training information to servicemembers within 12 months of their separation or 24 months of retirement from the military. Together with the military services, these agencies offer a number of services to help separating servicemembers learn basic job-hunting skills and gain the self-confidence necessary to make informed career choices.

Three-day workshops to help separating servicemembers and their spouses begin the transition from military to civilian employment are conducted at military installations. Additional information is available through the Veterans Employment and Training Service staff in each state. Addresses and phone numbers are listed in the government section of telephone directories under Department of Labor and on the Internet: <http://www.dol.gov/vets/aboutvets/contacts/main.htm>.

Pre-separation Counseling

The military services are required by law to provide individual pre-separation counseling at least 90 days prior to servicemember's discharge. These sessions present information on education, training, employment assistance, National Guard and reserve programs, medical benefits and financial assistance to separating service members.

Verification of Military Experience and Training

The Verification of Military Experience and Training (VMET) Document, DD Form 2586, helps servicemembers verify previous experience and training to potential employers, write their resumes, prepare for job interviews, negotiate credits at schools, and obtain certificates or licenses. VMET documents are available only through Army, Navy, Air Force and Marine Corps Transition Support offices and are intended for separating or retiring servicemembers who have at least six months of active duty service. Servicemembers should obtain VMET documents from their Transition Support office within 12 months of separation or 24 months of retirement.

Transition Bulletin Board (TBB)

Veterans may find employment opportunities on the TBB Web site: <http://www.dmdc.osd.mil/ot>. The site contains business opportunities, a calendar of transition seminars, job fairs, information on military and veterans associations, transition services, training and educational opportunities, as well as other announcements pertinent to separating personnel.

DoD Transportal

DoD supplements the various transition assistance resources available to separating military personnel through the Web site: <http://www.dodtransportal.org>. In addition to providing the locations and phone numbers of all Transition Assistance Offices, the site offers mini-courses on conducting successful job search campaigns, writing resumes, using the Internet to find a job and links to job search and recruiting Web sites. Additional resources may be found on the Internet: <http://www.dod.jobsearch.org> features.

Veterans' Workforce Investment Program

This program seeks to increase employment, job retention, earnings, and occupational skills of recently separated veterans and veterans who have service-connected disabilities, significant barriers to employment or who served on active duty in the armed forces during a campaign or expedition for which a campaign badge was authorized. These programs may be conducted through state or local public agencies, community-based organizations or private, nonprofit organizations. Job counseling, resume preparation, job development and placement services are also available to help homeless veterans re-enter the workforce. Veterans should contact the nearest state employment service office for more information.

State Employment Services

In addition to providing unemployment compensation information, Workforce Career or One-Stop Centers provide a variety of services for veterans seeking employment, including current employment information, education and training opportunities, job counseling and job search workshops and resume preparation assistance. Disabled Veterans Outreach Program specialists at these offices and at VA regional offices and Vet Centers work closely with employers, veterans service organizations, community-based organizations and other government agencies to promote job development and improve employment and training opportunities for disabled veterans. Local Veterans Employment Representatives are also available to provide specialized services in each state. For additional information, visit: http://www.dol.gov/vets/programs/fact/Employment_Services_fs01.htm.

Re-employment Rights

A person who left a civilian job to enter active duty in the armed forces may be entitled to return to the job after discharge or release from active duty. Re-employment rights are provided for those who served in the active duty or reserve components of the armed forces. To be re-employed, four requirements must be met: (1) the person must give advance notice of military service to the employer; (2) the cumulative absence from the civilian job shall not exceed five years (with some exceptions); (3) the person must submit a timely application for re-employment; and (4) the person must not have been released with a dishonorable or other punitive discharge.

The law calls for the returning veteran to be placed in the job as if the veteran had remained continuously employed. This means that the person may be entitled to benefits that are based on seniority, such as pensions, pay increases and promotions. The law also prohibits discrimination in hiring, promotion or other advantages of employment on the basis of military service. Applications for re-employment should be given, verbally or in writing, to a person authorized to represent the company for hiring purposes. A record should be kept of the application. If there are problems gaining re-employment, the employee should contact the Department of Labor's Veterans' Employment and Training Service (VETS) in the state of the employer concerned. This applies to private sector, as well as state, local and federal government employees, including the Postal Service. Employees should contact their agency personnel office if they have questions about their employment restoration rights. If a veteran is

not re-employed or is not re-employed properly, the veteran has the right to file a complaint with VETS. Additionally, federal employees may appeal directly to the Merit Systems Protection Board. Non-federal employees may file complaints in U.S. District Court. Additional information is available on the Internet from the Department of Labor at: <http://www.dol.gov/vets/welcome.html>.

Federal Jobs for Veterans

Certain veterans, principally those who are disabled or who served in a hostile area, are entitled to preference for civil service jobs being filled by open, competitive exams. This preference includes five or 10 points added to passing scores in examinations and preference in job retention. Preference also is provided for certain unremarried widows and widowers of deceased veterans and for mothers of military personnel who died in service; spouses of service-connected disabled veterans who are no longer able to work in their usual occupations; and mothers of veterans who have permanent and total service-connected disabilities. Individuals interested in federal employment should contact the personnel offices of the federal agencies in which they wish to be employed. Visit the Office of Personnel Management (OPM) Web site: <http://www.usajobs.opm.gov> for information on creating a federal resume or to post a resume online.

Veterans enjoy many advantages in applying for federal jobs, but they are not guaranteed a position. Federal agencies are required by law to adhere to Merit System Principles in making appointments. Agencies have broad authority under law to select from a number of different sources of candidates. An agency can, for example, hire from an open competitive list of eligibles in which case veterans' preference applies.

Alternatively, the agency can reinstate a former federal employee, transfer someone from another agency, reassign someone from within the agency, make a selection under merit promotion procedures, or appoint someone noncompetitively who is eligible under a special appointing authority such as a Veterans Readjustment Appointment or the special authority for 30 percent or more disabled veterans. Veterans' preference is not a factor here, and the decision of which authority to use rests solely with the agency.

Finally, veterans who are eligible under the more recent Veterans' Employment Opportunities Act enjoy the right to apply for jobs under agency merit promotion procedures that are closed to others outside

the federal service. However, veterans receive no preference under this authority.

Veterans Readjustment Appointment (VRA)

VRA allows federal agencies to appoint eligible veterans to jobs without competition. Such appointments may lead to conversion to career or career-conditional employment upon satisfactory work for two years. Veterans seeking VRA appointment should apply directly to the agency where they wish to work. OPM administers the Disabled Veterans Affirmative Action Program, which requires that all federal departments and agencies establish plans to facilitate the recruitment and advancement of disabled veterans. OPM provides information on veterans' federal service employment rights and privileges on the Internet: <http://www.opm.gov/veterans/>.

Veterans' Invitational Program (VIP)

OPM, in working with VA and the Department of Defense, established the Veterans' Invitational Program to encourage veterans to pursue a civilian career with the federal government. VIP officials conduct seminars nationwide that explain veterans' preference, appointing authorities, resume writing, interview skills and the federal application process. The program also provides educational tools and publications distributed to veteran service organizations, military transition offices and VA regional offices.

Miscellaneous Benefits

Loans for Farms and Homes

Loans and guarantees may be provided by the U.S. Department of Agriculture to buy, improve or operate farms. Loans and guarantees are available for housing in towns generally up to 20,000 in population. Applications from veterans have preference. For further information contact Farm Service Agency or Rural Development, U.S. Department of Agriculture, Washington, DC 20250, or apply at local Department of Agriculture offices, usually located in county seats.

Housing and Urban Development (HUD)

HUD homeless assistance grants are awarded to non-profit organizations, state and local governments, and public housing authorities to provide housing and services for the homeless, including those who are veterans or disabled veterans. Other HUD-funded activities

include homeownership assistance, micro enterprise development, job training and substance abuse counseling. HUD sponsors the Veteran Resource Center (HUDVET), which works with national veterans service organizations to serve as a general information center on all HUD sponsored housing and community development programs and services. To contact HUDVET, call 1-800-998-9999, TDD 800-483-2209, or e-mail hudvet@hud.gov. HUD also funds approved housing counseling agencies that provide free counseling services. To find a counselor, call toll-free 1-800-569-4287 or visit: www.hud.gov:80/offices/hsg/sfh/hcc/hcc_home.cfm.

Naturalization Preference

On July 3, 2002, the president issued Executive Order 13269 providing naturalization for aliens and non-citizen nationals serving on active duty status in the U.S. armed forces from Sept. 11, 2001, to a date not yet determined. In addition, if a person dies as a result of injury or disease incurred or aggravated by such service, their survivor(s) can apply for posthumous citizenship at any time within two years of the death of the alien or non-citizen national.

Veterans who served prior to Sept. 11, 2001, are eligible to file for naturalization based on their U.S. military service. An applicant who served three years in the U.S. military and is a lawful permanent resident is excused from any specific period of required residence, period of residence in any specific place, or physical presence within the United States if the application for naturalization is filed while the applicant is still serving in the military or within six months of honorable discharge. Applicants who file for naturalization more than six months after termination of three years of U.S. military service may count any periods of honorable service as residence and physical presence in the United States. For additional information, visit the U.S. Citizenship and Immigration Service Internet Web site: <http://uscis.gov/graphics/services/natz/Special.htm>.

Aliens and non-citizen nationals with honorable service in the U.S. armed forces during specified periods of hostilities may be naturalized without having to comply with the general requirements for naturalization. This is the only section of the Immigration and Nationality Act, as amended, which allows persons who have not been lawfully admitted for permanent residence to file an application for naturalization. Any person who has served honorably during qualifying time may file an application at any time in his or her life if, at the time of enlistment, reenlistment, extension of enlistment or induction,

such person shall have been in the United States, the Canal Zone, American Samoa or Swain's Island, or, on or after Nov., 18, 1997, aboard a public vessel owned or operated by the United States for non-commercial service, whether or not lawful admittance to the United States for permanent residence has been granted.

Small Business Administration

The U.S. Small Business Administration's Office of Veterans Business Development provides a number of services to assist veterans who own or are considering starting small businesses. Among the services provided are loan guarantee programs, venture capital assistance, entrepreneurial development programs, government contracting assistance, and Military Reservist Economic Injury Disaster Loans. Information about SBA's full range of services can be found on the Internet: <http://www.sba.gov/vets> or by calling 202-205-6773. Veterans Business Development Officers at SBA District Offices can provide additional information. Call 1-800-U-ASK-SBA (1-800-827-5722) to locate the nearest SBA Office or for additional information.

Federal Tax Credits and Assistance

Federal law provides tax credits and special deductions that apply to many veterans or their families. The Earned Income Tax Credit may be available to low or moderate-income workers, depending on the amount of earned income and the number of qualifying children. Child Tax Credits may be available to taxpayers with children under age 17. Special deductions and credits can benefit disabled taxpayers or their families. Education credits and deductions for non-reimbursed educational expenses may be available to individuals when they or members of their family are pursuing post-secondary or job-related education. Free or low-cost income tax filing is available in many communities for low-income, elderly, disabled, and limited English proficient taxpayers. For additional information, visit <http://www.irs.gov> or call 1-800-829-1040.

Social Security

Monthly retirement, disability and survivor benefits under Social Security are payable to veterans and dependents if the veteran has earned enough work credits under the program. Upon the veteran's death, a one-time payment of \$255 also may be made to the veteran's spouse or child. In addition, a veteran may qualify at age 65 for Medicare's hospital insurance and medical insurance. Medicare protection is available to people who have received Social Security disability benefits for 24 months, and to insured people and their

dependents who need dialysis or kidney transplants, or who have amyotrophic lateral sclerosis (Lou Gehrig's disease).

Active duty or active duty for training in the U.S. uniformed services has counted toward Social Security since January 1957. Since Jan. 1, 1988, inactive duty for training as a member of reserve components of the armed forces also counts toward Social Security. Servicemembers and veterans receive an extra \$300 credit for each quarter in which they received any basic pay for active duty or active duty for training after 1956 and before 1978. Veterans who served in the military from 1978 through 2001, receive a credit of \$100 for each \$300 of reported wages up to a maximum credit of \$1,200. After 2001, additional earnings will no longer be credited. No additional Social Security taxes are withheld from pay for these extra credits. Also, noncontributory Social Security credits of \$160 a month may be granted to veterans who served after Sept. 15, 1940, and before 1957, including attendance at service academies. For information, call 1-800-772-1213 or visit <http://www.socialsecurity.gov>.

Supplemental Security Income

Those age 65 or older and those who are blind or otherwise disabled may be eligible for monthly Supplemental Security Income (SSI) payments if they have little or no income or resources. States may supplement the federal payments to eligible persons and may disregard additional income. Although VA compensation and pension benefits are counted in determining income for SSI purposes, some other income is not counted. Also, not all resources count in determining eligibility. For example, a person's home and the land it is on do not count. Personal effects, household goods, automobiles and life insurance may not count, depending upon their value. Information and assistance in applying for these payments may be obtained at any Social Security office or by calling 1-800-772-1213.

Passports to Visit Overseas Cemeteries

"No-fee" passports are available for family members visiting graves or memorialization sites at World War I and World War II cemeteries overseas. Those eligible for such passports are limited to surviving spouses, parents, children, sisters, brothers and guardians of the deceased who are buried or commemorated in American military cemeteries on foreign soil. For additional information, write to the American Battle Monuments Commission, Courthouse Plaza II, Suite 500, 2300 Clarendon Blvd., Arlington, VA 22201, call 703-696-6897, or visit their Homepage: <http://www.abmc.gov/>.

Medals

Medals awarded while in active service are issued by the individual military services if requested by veterans or by the next of kin of deceased veterans. Requests for the issuance or replacement of military service medals, decorations, and awards should be directed to the specific branch of the military in which the veteran served. However, for Air Force (including Army Air Corps) and Army veterans, the National Personnel Records Center (NPRC) verifies the awards to which a veteran is entitled and forwards requests and verification to appropriate service department for issuance.

Requests for replacement medals should be submitted on Standard Form 180, "Request Pertaining To Military Records," which may be obtained at VA offices, from veterans organizations or downloaded from the Internet: <http://www.vba.va.gov/pubs/otherforms.htm>. The Military Personnel Records section of NPRC's Web site: http://www.archives.gov/facilities/mo/st_louis/military_personnel_records.html has forms, addresses and other information on requesting medals.

When requesting medals, type or clearly print the veteran's full name, include the veteran's branch of service, service number or Social Security Number and provide the veteran's exact or approximate dates of military service. The request must contain the signature of the veteran or the signature of the next of kin if the veteran is deceased. If available, include a copy of the discharge or separation document, WDAGO Form 53-55 or DD Form 214.

Review of Discharges

Each of the military services maintains a discharge review board with authority to change, correct or modify discharges or dismissals that are not issued by a sentence of a general courts-martial. The board has no authority to address medical discharges. The veteran or, if the veteran is deceased or incompetent, the surviving spouse, next of kin or legal representative may apply for a review of discharge by writing to the military department concerned, using DoD Form 293. This form may be obtained at a VA regional office, from veterans organizations or from the Internet: <http://www.dtic.mil/whs/directives/in-fomgt/forms/formsprogram.htm>. However, if the discharge was more than 15 years ago, a veteran must petition the appropriate Service Board for Correction of Military Records using DoD Form 149, which is discussed in the "Correction of Military Records" section of this booklet. A discharge review is conducted by a review of an applicant's record and, if requested, by a hearing before the board.

Discharges awarded as a result of a continuous period of unauthorized absence in excess of 180 days make persons ineligible for VA benefits regardless of action taken by discharge review boards, unless VA determines there were compelling circumstances for the absence. Boards for the correction of military records also may consider such cases.

Veterans with disabilities incurred or aggravated during active military service may qualify for medical or related benefits regardless of separation and characterization of service. Veterans separated administratively under other than honorable conditions may request that their discharge be reviewed for possible recharacterization, provided they file their appeal within 15 years of the date of separation. Questions regarding the review of a discharge should be addressed to the appropriate discharge review board at the address listed on DoD Form 293.

Replacing Military Records

If discharge or separation papers are lost, veterans or the next of kin of deceased veterans may obtain duplicate copies by completing forms found on the Internet at: http://www.archives.gov/research_room/vetrecs/ and mailing or faxing them to the National Personnel Records Center. Alternatively, write the National Personnel Records Center, Military Personnel Records, 9700 Page Blvd., St. Louis, MO 63132-5100. Specify that a duplicate separation document or discharge is needed. The veteran's full name should be printed or typed so that it can be read clearly, but the request must also contain the signature of the veteran or the signature of the next of kin, if the veteran is deceased. Include branch of service, service number or Social Security number and exact or approximate dates and years of service. Use Standard Form 180, "Request Pertaining To Military Records." (See the "World Wide Web Links" section of this booklet for more information on obtaining this and other federal forms through the Internet, or contact your local VA regional office.) It is not necessary to request a duplicate copy of a veteran's discharge or separation papers solely for the purpose of filing a claim for VA benefits. If complete information about the veteran's service is furnished on the application, VA will obtain verification of service from the National Personnel Records Center or the service department concerned.

Correction of Military Records

The secretary of a military department, acting through a board for correction of military records, has authority to change any military

record when necessary to correct an error or remove an injustice. A correction board may consider applications for correction of a military record, including a review of a discharge issued by courts martial.

The veteran, survivor or legal representative generally must file a request for correction within three years after discovery of an alleged error or injustice. The board may excuse failure to file within the prescribed time, however, if it finds it would be in the interest of justice to do so. It is an applicant's responsibility to show why the filing of the application was delayed and why it would be in the interest of justice for the board to consider it despite the delay.

To justify a correction, it is necessary to show to the satisfaction of the board that the alleged entry or omission in the records was in error or unjust. Applications should include all available evidence, such as signed statements of witnesses or a brief of arguments supporting the correction. Application is made with DD Form 149, available at VA offices, from veterans organizations or on the Internet: <http://www.dtic.mil/whs/directives/infomgt/forms/formsprogram.htm>.

Armed Forces Retirement Home

Veterans are eligible to live in the Armed Forces Retirement Home in Gulfport, Miss., or Washington, D.C., if their active duty military service is at least 50 percent enlisted, warrant officer or limited duty officer if they are: 60 years of age or older and have completed 20 years or more of active duty service; unable to earn a livelihood due to a service-connected disability; unable to earn a livelihood due to a non-service connected disability and served in a war theater during a time of war declared by Congress or received hostile fire pay; female veterans who served prior to 1948.

Veterans are not eligible if they have been convicted of a felony or are not free from alcohol, drug or psychiatric problems. Married couples are welcome, but both must be eligible in their own right. At the time of admission, applicants must be capable of living independently.

The Armed Forces Retirement Home is an independent federal agency. For information, please call 1-800-332-3527 or 1-800-422-9988, or visit their Web site: <http://www.afrh.gov/>.

Commissary and Exchange Privileges

Unlimited exchange and commissary store privileges in the United States are available to honorably discharged veterans with a service-connected disability rated at 100 percent, unmarried surviving spouses of members or retired members of the armed forces, recipients of the Medal of Honor, and their dependents and orphans. Certification of total disability is done by VA. Reservists and their dependents also may be eligible. Privileges overseas are governed by international law and are available only if agreed upon by the foreign government concerned. Though these benefits are provided by DoD, VA does provide assistance in completing DD Form 1172, "Application for Uniformed Services Identification and Privilege Card." For detailed information, contact the nearest military installation.

Death Gratuity

Military services provide a death gratuity of \$12,420 to a deceased servicemember's next of kin. The death gratuity is paid for death in active service or for retirees who died within 120 days of retirement as a result of service-connected injury or illness. Parents, brothers or sisters may be provided the gratuity, if designated as next of kin by the deceased. The gratuity is paid by the last military command of the deceased. If the beneficiary is not paid automatically, application may be made to the military service concerned.

Tables

2005 Disability Compensation

| Disability | Monthly Rate (\$) |
|-------------|-------------------|
| 10 percent | 108 |
| 20 percent | 210 |
| 30 percent | 324 |
| 40 percent | 466 |
| 50 percent | 663 |
| 60 percent | 839 |
| 70 percent | 1,056 |
| 80 percent | 1,227 |
| 90 percent | 1,380 |
| 100 percent | 2,299 |

Veterans with disability ratings between 30 percent and 100 percent are eligible for allowances for a spouse and for each minor child. The amount depends on the disability rating.

2005 Improved Disability Pension

| Status | Maximum Annual Rate (\$) |
|---|--------------------------|
| Veteran without dependent | 10,162 |
| Veteran with one dependent | 13,309 |
| Veteran permanently housebound, no dependents | 12,419 |
| Veteran permanently housebound, one dependent | 15,566 |
| Veteran needing regular aid and attendance, no dependents | 16,955 |
| Veteran needing regular aid and attendance, one dependent | 20,099 |
| Two veterans married to one another | 13,309 |
| Veterans of World War I and Mexican Border Period, addition to the applicable annual rate | 2,305 |
| Increase for each additional dependent child | 1,734 |

Examples and more information can be found in the Compensation and Pension Benefits section of VA's Internet pages <http://www.va.gov>. Click on "Rate Tables."

2005 Vocational Rehabilitation Rates

(Paid monthly (\$))

| Type of training* | No dependent | One dep. | Two dep. | Each add. dep. |
|-------------------|--------------|----------|----------|----------------|
| A | | | | |
| Full-time | 474.27 | 588.30 | 693.25 | 50.54 |
| 3/4-time | 356.36 | 441.86 | 518.31 | 38.86 |
| 1/2-time | 238.45 | 295.44 | 347.27 | 25.93 |
| B | | | | |
| Full-time | 474.27 | 588.30 | 693.25 | 50.54 |
| C | | | | |
| Full-time | 414.67 | 501.46 | 577.92 | 37.59 |
| D | | | | |
| Full-time | 474.27 | 588.30 | 693.25 | 50.54 |
| 3/4-time | 356.36 | 441.86 | 518.31 | 38.86 |
| 1/2-time | 238.45 | 295.44 | 347.27 | 25.93 |
| 1/4-time | 119.21 | 147.72 | 173.63 | 12.93 |

***Type of training**

A. Institutional or independent living training, or unpaid work experience in a federal, state or local agency, or an agency of a federally recognized Indian tribe.

B. Unpaid on-the-job training in a federal, state or local agency, or an agency of a federally recognized Indian tribe; training in a home; vocational course in a rehabilitation facility or sheltered workshop; independent instructor; institutional non-farm cooperative.

C. Farm cooperative, apprenticeship, on-the-job training, or on-the-job non-farm cooperative. VA payment is based on the wage received.

D. Extended evaluation.
